

# DENBY AGAIN ACCUSED IN OIL CASE

## Braves Fire Death to Save Loved Ones

### FATHER IN DARING RESCUE

Mother and 3-Months' Old Twins Awakened As Blaze Perils Their Lives

PARENT ALSO CARRIES SON, 3, TO SAFETY

Family Rendered Homeless As Flames Destroy Dwelling

Roused from his slumbers at 3:30 a. m. today to find his house on fire and flames blocking the way to the bedroom, where, oblivious to the danger, his wife and 3-months-old twins, Henry and Walter jr., were sleeping, Walter Gutman, 705 King street, carried to safety his 3-year-old son, Alfred, with whom he was sleeping, then climbed through a window into his wife's room and succeeded in awakening her and rescuing the twins just before the house caved in.

The house, valued at \$3300 and covered by insurance was completely destroyed before the fire department could respond to a late summons. The nearest fire hydrant, at the extreme west section of the city, was a quarter of a mile from the residence.

The fire started, fire department officials believed, from a kerosene stove on which Mrs. Gutman, half an hour before the blaze was discovered, had heated milk for the babies.

Fails to Turn Off Heater

Mrs. Gutman said she did not remember turning out the heater before she returned to bed. Flames from the stove evidently spread to the woodwork and thence to the ceiling.

Awakened by the smoke and the crackling of the burning wood, Gutman lifted his son, Alfred, out of the window and then attempted to penetrate the flames which had engulfed the little hallway leading to his wife's bedroom in the rear of the house.

Finding this impossible, Gutman retreated to his own room, leaped out of the window and ran around the house to a window of his wife's room and climbed in.

After awakening her, he picked up the tiny babes and with Mrs. Gutman escaped through a rear door.

Again Enters House

He next pushed his automobile away from the building and re-entered the house, then in flames on every side.

Gutman, who is a carpenter, on this visit to the house removed his carpentry tools. He also succeeded in carrying out a handful of clothing. He was unable again to attempt an entry into the structure.

Mr. and Mrs. Gutman and their children spent the rest of the morning at the residence of Henry Haering, 220 West Eighth street. This morning they went to Los Angeles where they temporarily will stay with relatives.

TOO MUCH RELIGION

LOS ANGELES, Feb. 8.—His wife's new religion in which she and other members of the cult "got down on the floor and rolled around" for Charles Johnson to seek a divorce.

HUNTSVILLE, Texas, Feb. 8.—Death held a carnival with in the gaunt, gray walls of the state penitentiary here today when five condemned negro murderers went to their death in the electric chair as the state of Texas inaugurated electrocution as its legal means of execution instead of hanging.

Charles Reynolds, 27, of Red River county opened the "orgy of death."

In quick succession, three others marched down the avenue of death and were shocked into eternity.

Ewell Morris, of Victoria, was second. It took the 3,000 volt current only two minutes

### Ship \$500,000 By Plane to Halt Bank Run

WASHINGTON, Feb. 8.—Federal reserve members here today told with pride how the Dallas reserve bank early this week rushed \$500,000 in currency by airplane to a southwestern bank 500 miles away, to meet a "run."

A hurry call was received by the Dallas bank for funds with which to stave off ruin. Investigation was promptly made by the bank which disclosed that the suffering bank was in good condition.

An airplane was immediately commandeered, \$500,000 in cash stowed in the cockpit and a swift flight over desert and prairie to the suffering bank ensued. The plane arrived in time to prevent the bank closing its doors.

### HOLD CLARK AS SLAYER OF BROKER

Grand Jury Indicts Suspect In San Diego Mystery On Testimony of Murderer.

SAN DIEGO, Feb. 8.—The grand jury today indicted E. Drew Clark on a charge of murdering George E. Schick, missing local broker.

The action followed some thirty minutes of testimony by John V. Hendrix, "moonshine murderer," who was brought from his cell in the county jail at 11 o'clock to testify.

This was the only evidence given the grand jury in addition to the statements of Mrs. Sarah Margaret Schick, Mae Drew Clark, wife of the accused man, and other witnesses last October.

### DEMAND NAVAL PROTECTION FOR SOUTH

(By United Press Leased Wire)

WASHINGTON, Feb. 8.—The hearing of the house naval affairs committee on the Alameda naval base was sidetracked today by a demand of Representative O'Connor, Louisiana, for southern naval bases.

The committee finally adjourned with Rear Admiral Eberle still on the stand, but without direct consideration of the Alameda project.

O'Connor criticized the navy for having no naval bases between Charleston, S. C., and the Grande, leaving, he said, the entire southern coast line without such protection.

Admiral Eberle said, under O'Connor's questioning that in the event of war with any trans-Atlantic power, the decisive naval engagement would probably be fought somewhere off the West Indies. He pointed out, however, that the navy's greatest air station was at Pensacola.

At one time Eberle referred to Mare Island and said the silt in the channel would so clog up the sides of a capital ship lying there for repairs that it would seriously affect her speed.

KISSING ABANDONED

PARIS, Feb. 8.—The French Boxing Federation ordered discontinuance of the practice of boxers exchanging kisses after a bout. For hygienic reasons hereafter the American custom of shaking hands will be substituted.

to still his heart. George Washington, a giant black from Newton county, was declared dead in four minutes. Mack Matthews, aged negro preacher of Newton county, came next. It took four and a half minutes to kill him.

For an hour Warden Miller held up the execution of Melvin Johnson, 19, in the hope a reprieve would be granted. Finally a message arrived from acting Governor Davidson. He said he could not interfere.

The negroes held up well on the brink of death. Each as he stepped into the chair made a brief speech. All had gotten religion and were ready to die.

## SEE \$25,000 WATER CLEAN-UP

### GAS QUICKLY TAKES LIFE OF SLAYER

New Form of Execution Held Success; Fumes Peril Spectators

CARSON CITY, Nev., Feb. 8.—Gee Jon, Chinese today died by lethal gas—the first man to be executed by the new "kindly, sleeping death."

At 9:37 a. m. three guards marched him from the condemned row of the state penitentiary here, forty yards across the prison yard to the lethal chamber.

He walked quietly, with practically no sign of nervousness.

The door was closed behind him and he was bound hand and foot to a heavy metal cot.

The process, all of which had been thoroughly rehearsed, required but a moment. Immediately the death chamber door was locked and three guards spun the wheels which turned the gas valves. There was a hiss of the poison gas rushing under pressure through the conduits into the cell.

Gas Works Quickly

The watchers at the death house window saw only a slight tremor of the body and then the condemned man's head fell suddenly to the right side and doctors declared that he was dead.

Three minutes elapsed between the time the gas was introduced into the death chamber and the time the physicians made their preliminary announcement of death. It is believed that death came even more quickly than that.

Thomas Russell, an American born Mexican who killed his Indian bride, was to have died with Gee Jon, by the same experiment, but his sentence was commuted late Thursday afternoon to life imprisonment. The Mexican youth agreed to stay with Gee Jon in the death cell all night, so that the Chinaman would not know he would have to die alone.

30 Witness Execution

Thirty persons, mostly newspapermen, watched the execution through the little window in the death chamber.

Immediately after physicians said they believed Gee Jon dead a current of fresh air was forced into the death chamber and later guards will enter and bring out the body.

Doctors, while waiting for the cell to be cleared of gas estimated that but ten seconds elapsed between the time the valve was turned and the time Gee Jon was entirely unconscious. It usually requires from ten to seventeen minutes to bring death by hanging.

Witnesses agreed that the chief sign of approaching death which they saw was a slight twitching of the body. There was little indication of pain.

Opinions of physicians and experts immediately following the execution were that the new method of taking "a life for a life" was a "success."

Witnesses in Peril

The work of clearing the lethal chamber of its death dealing gas was found a slow and dangerous task.

At the end of thirty minutes the chamber still was unsafe for any one to enter. Gee Jon was still lying strapped to the cot on which he had died. The body appeared rigid.

The prison yard finally was ordered cleared, officials fearing that the fumes being driven from the death cell might overcome some of the observers remaining at the prison.

"After conducting this execution," declared Warden Dickerson of the penitentiary, "I would reject lethal gas as a means of executing the death penalty on account of the danger to the witnesses."

"But for the condemned man I believe it is the best method devised."

### Hiram Scores Claims Of Early Coolidge Victory

WASHINGTON, Feb. 8.—Senator Hiram Johnson today held as ridiculous claims of Coolidge leaders that Mr. Coolidge would be nominated on the first ballot at the Cleveland convention and charged the Coolidge forces were stealing delegates.

"The assertion made by the mysterious and anonymous Coolidge manager of the nomination of Mr. Coolidge at the Cleveland convention is ridiculous and amusing," said Johnson in a statement. "They follow the regular course of a Bourbon campaign—to claim all, while putting every obstacle in the way of free expression or fair contest."

"If there were any such feeling of security or any such certainty of success, it would not be necessary to steal delegates in the south or deny primaries in the north, like Minnesota."

"These Bourbon Republicans, who control the Republican machinery, have a rude awakening before them and they may just as well make up their minds now as next June that the Republican party must clean house and if the Republicans themselves do not clean the house and clean it thoroughly, the people will do it for them."

(Continued on Page 16)

PHONE A WANTED

Grayson said she is suffering now from the reaction.

The Wilson tomb in Bethlehem chapel of Washington cathedral was open today to the public, while three soldiers stood watch. Hundreds filed past the crypt yesterday where the former President is buried.

Mrs. Wilson, Dr. Grayson said, is considering a trip away from Washington within a short time to rest.

L. A. Pair Facing Death on Gallows

LOS ANGELES, Feb. 8.—Sentenced yesterday to be hanged for the murder of Police Officers Harry Clester and W. L. Brett, William A. Bringham and Willard Thompson are waiting for April 18, the day set for their execution.

## Urges Federal Control Over Oil Industry as Prize Plot Alleged

LINCOLN, Neb., Feb. 8.—Charging existence of an oil monopoly, Governor Charles V. Bryan in a message to President Coolidge today demanded the government take over control of the oil industry.

Bryan's action followed the president's order to the department of justice to investigate increased prices in South Dakota on complaint of Gov. W. H. McMaster.

"The Standard Oil company seems to have combined all oil producing agencies, is forcing prices upward and robbing the public of millions of dollars," Bryan's message declared.

"Nebraska is unable to cope with it alone," the message continued, adding:

### Attacks Aimed at Poincare Stir Up Wrath

PARIS, Feb. 8.—"I've had enough. I'm going!" shouted Premier Poincare in the chamber of deputies this afternoon, after some particularly bitter and personal heckling by communist members.

Poincare stalked out of the chamber followed by his cabinet and the session was suspended by the president of the chamber.

There was an uproar in the chamber.

Finally the premier returned and the session was resumed.

Deputy Peret pleaded with the communists to cease personal invectives.

Applauded by a majority of the deputies, Poincare did not resign.

### TAX RETURNS OF OIL MEN FACE PROBE

Senators Launch New Attack On Sinclair and Doheny In Big Oil Sensation.

WASHINGTON, Feb. 8.—Representative Browning, Tennessee, and Jeffers, Alabama, today introduced identical resolutions in the house providing for congressional investigation of the income tax returns of Harry F. Sinclair, lessee of Teapot Dome; E. L. Doheny, lessee of naval oil reserves, and E. L. Doheny, jr. Their resolutions provide the investigation shall cover the period from 1913, including 1922.

The investigating committee would be composed of seven senators and eleven house members.

## BOND SCANDAL IS TAKEN TO CONGRESS

WASHINGTON, Feb. 8.—The bureau of engraving scandal involving alleged looting of the treasury through duplication of war bonds, will be aired on the House floor today.

Representative Laguardia, New York, a member of the progressive group demanding action on the sensational charges by Charles E. Brewer, department of justice investigator, in his suit against Secretary Mellon and Attorney General Daugherty, is ready to tell what he found in Brewer's evidence.

Denial by Secretary Mellon yesterday of Brewer's charges have not altered the determination of the progressive group to give the charges a thorough airing in Congress.

Representative King is particularly confident that the charges can be sustained.

Meanwhile, the senate may take a hand. Senator Caraway, Arkansas, champion of the twenty-eight officials of the bureau discharged by the late President Harding, is restive over the delay in restoring the men to their former positions.

### S. F. MAN INJURED IN CAR COLLISION

PETALUMA, Feb. 8.—J. J. Kosey of Benson street, Santa Rosa, traveling salesman for Langley & Michaels of San Francisco, was badly cut and pinned beneath his automobile, when his machine was struck by another car, which is alleged to have cut in. Kosey kept honking the horn of his car until help arrived.

## RAPS NAVY CHIEF IN SPEECH

Senator Walsh Declares Cabinet Member Guilty of Stupidity

### RESIGNATION OF OFFICIAL URGED

Break In Democratic Ranks Seen As Party Splits On Resolution

WASHINGTON, Feb. 8.—Secretary of the Navy Denby should be driven out of office, "with all the odium that can possibly attach to his going," Senator Walsh, the Montana investigator, who unearthed the Teapot Dome scandal, told the senate today.

Walsh's attack on Denby followed testimony before the senate Teapot Dome committee by F. G. Bonfils, publisher of the Denver Post, which revealed:

That Bonfils, with Lea Stack, a Denver politician, had a contract with Harry Sinclair, Teapot Dome lessee, under which Sinclair has already paid \$250,000 and must pay \$1,000,000 more if he wants to drill certain acreage in Teapot Dome. That Stack at one time tried to get Teapot Dome for E. L. Doheny, lessee of the California reserves.

Walsh's attack on Denby, delivered soon after the senate met, was the bitterest yet heard since the senate began considering the Robinson resolution demanding Denby be called on to resign.

Walsh expressed doubt that Denby could be impeached.

"Stupidity," he said, "is not a ground for impeachment. I do not believe Mr. Denby guilty of treason. I know of no evidence upon which he could be convicted of bribery or any other high crime or misdemeanor."

"But this is no time to stand up on fine-spun theories concerning the exact line distinguishing the domain of the executive from that of the legislative branch of the government."

Charges Great Crime

"A great crime has been committed. The very structure of our government rocks upon its foundations in consequence of the revelations made in connection with it. There is but one way to restore to it that confidence which is indispensable to its capability and perpetuity, namely, to visit upon the perpetrators the extreme penalty of the law and to drive from the public service everyone through whose contrivance it became possible."

Walsh attacked Senator Lenroot, chairman of the committee, for attempting to draw McAdoo into the controversy, saying:

"It was observed the chairman of the committee, who has repeatedly from the floor lectured other members for giving to the investigation a political color, traveled outside the realm of examination into the leases of the naval oil reserves, by the resolution to inquire into the employment by Dr. Doheny of counsel in matters unrelated thereto for the perfectly obvious purpose of ruining the prospects of the leading candidate for the Democratic nomination for President."

Scores Doheny

"Mr. Doheny says the wool was pulled over his eyes. His testimony discloses that it was not much of a trick; that he is one of those who, having eyes, see not, and having ears, hear not, the things that concern their temporal, however it may be with their eternal salvation."

Walsh attacked Senator Bruce, Democrat, Maryland, who yesterday opposed the Denby resolution. Senator Borah suggested that if Denby was guilty at all, he was guilty of participating in a conspiracy. And, if so, whether he accepted a bribe or not, he could be impeached, Borah held. Walsh admitted this but said it would be difficult to prove.

SINCLAIR SELLS OIL TO HUGO STINNES

COLOGNE, Feb. 8.—Harry F. Sinclair sold oil to Hugo Stinnes, money master of Germany.

The American promoter, lessee of the Teapot Dome Naval Reserve concluded agreements for delivery of oil to the German industrialist, begun when the latter's son visited in America.

Friends of Sinclair pointed out that his conference with Stinnes today proved he actually had business in Europe and was not merely dodging the senate investigating committee at Washington.

# business is business

If your broker called you up today with some exciting news about some stock you would drop everything and immediately rush to learn more. Well, business is business, and the new Spring Suits and Hats at Collins' are a real business proposition for you, so put on your hat and have a look at 'em. ## PASADENA DEBATORS MEET S. A. TONIGHT

Tonight's debate between Santa Ana and Pasadena high schools, to be held in the local school's auditorium at 7:30 o'clock, promises to be one of the best ever held in the city, according to those who have heard Miss Alice Olive Forney and Gail Jordan, the local team, in their final preparations for the contest.

The question for discussion is, "Resolved That the Philippine Islands Be Given Immediate Independence." The contest will be a regularly scheduled Southern California league debate.

A concert by the Santa Ana high school band, under the direction of S. J. Mustol, will precede the match.

Ernest Crozier Phillips' drama class will stage a one-act play after the debate.

## THURLOCK REACTORS

## False Teeth Are Cause of Anxiety

MARYSVILLE, Feb. 8. — Swallowing a three-cornered plate of her false teeth came close to causing the death of Mrs. John Carstenbrook of this city. The teeth lodged in her throat, causing a hemorrhage. Two doctors rushed her to a hospital and checked the flow of blood. An X-ray revealed the plate in her throat. Fortunately the teeth are not choking her, and an effort is to be made to remove them when she becomes stronger, as the hemorrhage has weakened her heart.

## U. S. RUSHES SHIP TO HONDURAS PORT

(By United Press Leased Wire) WASHINGTON, Feb. 8. — The American Cruiser Rochester has again been despatched from Panama to Honduras to protect American lives and interests that may be menaced by the civil war believed imminent in that country, the state department announced today.

The Rochester is being sent from Colon, Panama, where it has rejoined the American fleet after having been off the coast of Honduras for some time during the political troubles that have disturbed the country.

## Taft Illness of Short Duration

WASHINGTON, Feb. 8.—Former President Taft is now considered to have recovered from the attack of indigestion which sent him to bed on Wednesday, his doctor said today.

Taft will remain indoors for a few days longer and must not resume hard work at the supreme court for some time to come.

BLADES KILLING HOGS PASADENA, Feb 8—Safety razor blades thrown in the city garbage are killing so many hogs owners

## FREE ICE, WATER OFFERED TOURISTS

OAKDALE, Feb. 8.—The Union Oil Company has decided to take advantage of the offer of the City of Oakdale to furnish free ice and water for passing tourists. The company had already put in a drinking fountain at the side of its service station here, but the city fathers informed the oil corporation that the offer of free ice and artesian water, held good only in case the drinking fountain was placed at the street intersection. The company is tearing up the present system and installing a new fountain at the highway corner.

## ITALY RECOGNIZES SOVIET GOVERNMENT

(By United Press Leased Wire) MOSCOW, Feb. 8.—Italy has granted full diplomatic recognition to Russia.

The Italian diplomatic representative here this afternoon informed the foreign office his government recognizes the present De Jure government of Russia and is prepared to appoint an ambassador immediately.

Simultaneously the foreign office announced that Premier Mussolini of the Italian government handed the Russian diplomatic representative in Rome an identical document.

The Italian premier proposed immediate appointment of ambassadors, the foreign office statement said.

## Birth Notices

MURDY—At the Santa Ana Valley  
hospital, February 7, 1924, to Mr. and  
Mrs. J. A. Murdy Jr., R. D. 1, Hunt-  
ington Beach, a daughter.

## Death Notices

A WORD OF COMFORT  
We make the day to become  
more worthy to serve Him there.  
We know that the understanding and the char-  
acter we attain here will be our  
rich possession beyond. All of life  
takes on new meaning when we  
know that it lasts forever, and  
nothing is too hard to do or to  
bear which shall fit us for eter-  
nity with those we love.

ROBINSON—At her residence, 615  
East First street, February 8, 1924,  
Mrs. Luenda E. Robinson, aged 61  
years.  
She leaves two sons, John B. of  
Santa Ana, and Jay W. Robinson of  
New York, two sisters, Mrs. Laura  
S. Davis of Santa Ana, and Mrs.  
Mary Lott of Monrovia.  
Services, with the Rev. Otto S.  
Russell of the First Baptist church,  
officiating, will be held from the  
Wingfield Mission funeral home  
Monday at 10 a. m.  
Interment following in Fairhaven  
cemetery.

CARRILLO—At Ontario, Calif., Feb-  
ruary 6, 1924, Mrs. Mercedes Carrillo,  
aged 21 years, wife of Frank Car-  
rillo, a druggist formerly of Santa  
Ana.  
Services under direction of Win-  
gfield's were held from St. Joseph's  
Catholic church today at 9:30 a. m.  
Interment was made in Fairhaven  
cemetery.

WOOD—In Santa Ana, February 8,  
1924, infant daughter of Mr. and  
Mrs. P. E. Wood of 1825 West Third  
street. Services will later be held  
from Wingfield's.

JOHNSON—At West Orange, Feb-  
ruary 7, 1924, Harry Johnson, aged  
59 years.  
Funeral services were held today  
at 10 a. m. from Smith & Tuttle's  
chapel.  
Burial in Santa Ana cemetery.

CARD OF THANKS  
We wish to express our appreciation  
for the many kindnesses shown and  
the beautiful floral offerings, during  
our recent bereavement.

THE GULICK FAMILY.  
CARD OF THANKS  
We wish to thank our many friends  
for the beautiful flowers and also for  
the loving kindness and sympathy ex-  
tended to us in our recent bereave-  
ment.

RUSSELL H. JOHNSON  
MR. AND MRS. W. R. SYLVESTER  
MR. AND MRS. H. E. JOHNSON.

Notice of postponement of Scouts  
Ceremonial from Feb. 9th to Sat-  
urday, Feb. 16th. Members are re-  
quested to be present at rehearsal  
to be held Saturday, Feb. 9th, at  
Scouts Hall, Third and Ross streets  
8 p. m. C. R. Lane, Toparch.

Special meet-  
ing of Santa  
Ana Lodge No.  
241, F. & A.  
M., Friday,  
Feb. 8th, at  
7 p. m., to con-  
fer First De-  
gree of Ma-  
sonry. Visitors welcome.

Radio Den, Grand Cen-  
tral Market

4:30 to 5:00 p. m. daily,  
except Sunday, (263 meters).  
Late news bulletins, sport-  
ing news, and musical num-  
bers.

4:30 to 5:00 p. m. Mon-  
days and Thursdays (263  
meters). Late news, sports  
and Agriograms.

6:30 to 7:30 p. m. Mon-  
days and Thursdays, concert  
programs.

All phonograph records  
played daily at The Regis-  
ter, concerts furnished by  
Carl G. Strock. The excel-  
lent piano and an Edison  
phonograph were also fur-  
nished by Mr. Strock.

## News Briefs

Today the C. C. Chapman ranch  
near Fullerton attracted much at-  
tention from farmers and others  
interested in soil fertilizer. H.  
E. Wahlberg, local farm advisor,  
assisted in the second annual ap-  
plication of commercial fertilizer  
at the test plots of the Chapman  
ranch.

The West Orange farm center  
met last night in the chapel of  
the county hospital, to plan a pro-  
gram for walnut and citrus fruit  
pest control, pruning and tree  
branching, water conservation, soil  
moisture regulation and fertiliza-  
tion. Stereopticon views of Euro-  
pean farm methods were shown  
the ranchers.

"Methods of Studying Epidem-  
ics" will be the subject for discus-  
sion at a meeting of city science  
teachers to be held next Wednes-  
day at 7:30 p. m. in room 55 at  
the high school. According to J.  
Russell Bruff, head of the science  
department of the city schools,  
Dr. Charles D. Halliday, state epi-  
demiologist, will lead the discus-  
sion, which is open to the public.

Roy Russell, prominent local  
real estate broker, today announc-  
ed plans for building a seven-  
room residence and garage at  
418 West Santa Clara avenue, at  
a cost of \$5000.

FLOWER STREET  
CONTINUATION  
URGED HERE

The Santa Ana Chamber of Com-  
merce has received a number of  
requests urging the continuation of  
Flower street to Santa Clara ave-  
nue. J. C. Metzger, secretary, said  
today: "The public improvement  
committee has been notified to in-  
vestigate the matter and make a  
recommendation at the next meet-  
ing of the chamber."

The president of the organiza-  
tion has been authorized to appoint  
a committee to find and recom-  
mend a suitable landing field for  
airplanes, such field to be close  
to the city and near traffic con-  
nections, but as far as possible  
from telephone and light wires.

To Attract Air Travelers.  
The chamber announced another  
location is desired for painting the  
name of the city on a large roof for  
the benefit of persons traveling by  
airplane. Authorization has been  
made for painting in huge letters,  
"Santa Ana," on the Yost theater  
tower.

An invitation has been received  
requesting the secretary or a rep-  
resentative of the chamber to at-  
tend the regional conference of the  
United States Junior Chamber of  
Commerce, held in San Diego, Feb-  
ruary 22 and 23. No action has  
been taken on this request.

Excursionists Come Here.  
A "get acquainted" party, known  
as the Golden Rule Sociability  
Special Train Excursionists of the  
Los Angeles Chamber of Com-  
merce, will have luncheon in Santa  
Ana with local chamber members  
and others who desire to meet the  
Los Angeles "live wires."

Hereafter, whenever possible, all  
meetings of the local organization  
will be held at 4 p. m. instead of  
8:30 a. m., in order that a larger  
attendance may be assured.

LEGION POSTS  
PLAN RITUAL  
CONTEST

Plans for an Orange county rit-  
ualistic contest to be conducted by  
American Legion posts of this  
county will be discussed Tuesday  
night at the meeting of the Full-  
erton organization, according to an  
announcement made today by Sam  
Collins, commander of Fullerton  
post. Fullerton post members have  
not decided whether they will  
participate in the contest or not.

According to tentative plans for  
the contest the affair will be held  
during the month of May. Where  
it will be held has not been an-  
nounced. It is said that practi-  
cally all posts of the county will par-  
ticipate in the contest. The matter of  
Fullerton entering will be taken  
up with the members of the post  
on Tuesday night and a definite  
decision reached. In the opinion of  
post officials the members will  
give their approval to the plan.

Plenty of good, pure, fresh water  
from our own wells at South Park  
Homesites on South Main Street.  
Everybody welcome.

ORANGE "DADS"  
GATHER WITH  
LEGION MEN

ORANGE, Feb. 8.—The American  
Legion of Orange sat in regular ses-  
sion at their hall Thursday night  
at 8 o'clock. It was called "Dad's  
Night", as the city dads and many  
other dads were present by special  
invitation.

Commander Claude Potter open-  
ed the meeting, followed by prayer  
by the Post Chaplain, after the leg-  
ion emblem and the stars and  
stripes had been carried forward  
and placed in front of the com-  
mander's desk.

Flays Propagandists  
Mr. Dodson, of Long Beach, was  
the speaker of the evening. He  
dwelt at length on the purposes and  
duties of the American Legion, to  
defend the country and its Consti-  
tution, which he said was the  
greatest document ever written by  
man.

He spoke of propaganda being  
circulated all over the United  
States by the I. W. W. and soviet  
agents of Russia for the purpose  
of undermining our government and  
the ultimate downfall thereof.

He spoke of the soldiers' bonus  
and said that he believed Senator  
Johnson was safe on this question  
and that Senator Shortridge had  
openly avowed, in the past, that he  
had fought for the measure and  
would continue doing so, and he  
wanted the American Legion, not  
collectively, but individually, and  
personally, to write Senator Short-  
ridge and remind him of these  
pledges.

He also stated there were ap-  
proximately 4,000,000 ex-servic-  
men in the country and that an  
average of three votes could be  
controlled or influenced by each  
one of these men, making a total  
of 12,000,000 votes could be used  
as a power in the coming election  
for the good of the country, if they  
would stick together and use it for  
that purpose.

Leon Whitell, county supervisor,  
followed Mr. Dodson, with a short  
but eloquent and impressive talk  
on the American Legion and the  
Constitution of the United States,  
giving quite a history of its fram-  
ing in the early days of our coun-  
try.

Proposes Bachelor Tax  
Mr. Shippee gave several selec-  
tions on the flute which were much  
enjoyed by all present, after which  
Mr. Casino held the audience spell-  
bound by his performance with the  
banjo, the like of which is very  
seldom heard. It was simply won-  
derful and called forth bursts of  
applause from everyone present.

Mr. Bluebaker, of Villa Park, stat-  
ed that while he was not a mem-  
ber of the Legion, he had boys who  
were and who had fought for the  
country's honor, and he advocated  
that a tax be placed on all bachel-  
ors, as he considered it essential  
for the safety and welfare of our  
country for men to marry and  
raise families.

Mr. Roseberry stated that he was  
proud of the fact that his only son  
and seven nephews were "over  
there" in the late war and fortu-  
nately all of them returned without  
any serious mishap. He said that,  
while he had always been a Re-  
publican, he would never cast a  
vote for Mr. Coolidge or any other  
man who was opposed to the sol-  
diers' bonus.

Commander Potter ordered the  
sergeant at arms to inspect the  
Legion members and see that they  
were wearing Legion buttons.  
Those who were not, were ordered  
to step up to the secretary's desk  
and decorate the mahogany with  
pieces of silver.

During a momentary lull in the  
proceedings the Commander not-  
ified the Sergeant at Arms to go  
to the culinary department, as he  
thought the cooks were playing  
pinch and not attending to busi-  
ness. This caused some laughter  
among the audience.

The minutes of the last meeting  
were read and approved. A letter  
was read from the High school,  
extending an invitation to the  
Legion to be present at their exer-  
cises on Lincoln Day, February 12  
at 2:00 p. m. and stating that seats  
would be reserved for them.

Commander Potter said that they  
would make a drive for increased  
membership all over the state and  
that a bonus was to be paid to the  
post showing the largest percent  
increase in new membership.

The meeting then adjourned,  
after which refreshments were  
served and some time was spent in  
listening to the radio.

Plenty of good, pure, fresh water  
from our own wells at South Park  
Homesites on South Main Street.  
Everybody welcome.

Notice to property owners on  
Linwood and Eastside avenue.  
Pay your assessments for paving  
at 216 Bush street now.

Tell Need of Man  
To Scale Flagpole

Santa Ana post No. 131, American  
Legion, has been embarrassed re-  
cently because it cannot find a  
steeplejack to climb a flagpole at  
the Legion hall, on Birch street,  
to place a rope and pulley. Com-  
mander E. T. McFadden declared  
today.

"We have been criticised by pa-  
triotic organizations and others here  
because we had no flag at half  
mast when former President Wil-  
son died," McFadden added, "but  
the truth is we must find someone  
to scale the twenty-foot staff on  
top of the hall."

POMONA SINGERS  
HEARD AT ORANGE

ORANGE, Feb. 8.—The Pomona  
College Girls' Glee club entertained  
the Orange high school student  
body yesterday afternoon with a  
very delightful program. There  
were sixteen girls in this chorus,  
directed by Mr. Babcock.

Their first number was "Waken  
Lords and Ladies Gay," the words  
by Sir Walter Scott and the music  
by Matthews.

The second number was a piano  
solo by Ruth Harper. She played  
"Liebestraum" by Liszt. Following  
this was a Spanish dance and song  
by Amelia Mendoza. The selection  
for this number was "Estudiantina"  
by Lacombe.

The entire glee club then sang  
"Cradle Song" by Brahms and "A  
Little Dutch Lullaby" by Stair.

Martha Davidson and Jane Barrett  
sang a humorous selection entitled  
"Foolish Questions."

The sixth number was "Deep  
River," an old negro melody, by  
Burleigh-Page, and "Goin' Home"  
by Dvorak (from the Largo of the  
Symphony, "From the New  
World"). The words and adap-  
tation to this song were by William  
Arnold Pepper. The entire glee club  
sang both these numbers.

Next was a "Spinning Song"  
from "The Flying Dutchman" by  
Wagner, by the glee club.

Helen Judson gave a reading,  
"The Americanization of a French  
Boy." Following this was an "Ita-  
lian Street Song" by Victor Herbert.

The next number was "Ghost  
Dance" by Prof. Bissel, and the last  
number of this very entertaining  
program was "Hail, Pomona, Hail,"  
the Alma Mater.

Yes; it's true—the world pro-  
gresses.

All you have to do nowadays to  
limber up that stiff, rusty knee  
joint is to squeeze a half inch of  
miracle working substance from a  
tube.

Then rub it on the offending part  
for about a quarter of a minute or  
until it soaks through the skin and  
disappears on its errand of mercy.

Then read the evening news-  
papers and go to bed.

The chances are that your mis-  
behaving knee joint will lose its  
"creak" while you are dreaming  
about the high fences you used to  
leap when you were a youngster.

"And in the morning," says one  
who has tried the new discovery,  
"you'll feel so happy that you'll  
want to jump into your sportiest  
clothes and walk briskly down the  
street just to show the neighbors  
that you are not as old as they  
think you are."

Joint Ease: They call this won-  
der working substance, for the rea-  
son that when ordinary remedies  
fail to limber up the stiff, inflamed  
rheumatic joint, or reduce the  
swelling, Joint-Ease succeeds.

It's a good name for a good,  
clean stainless prescription that in  
just a few months has proven to be  
a multitude of people that lame,  
swollen, distorted joints can speed-  
ily have the kinks taken out of  
them and work as smoothly as  
ever.

But Joint Ease is for the bother-  
some joints, whether in knee,  
ankle, hip, shoulder, spine or finger,  
and for that purpose its sale  
is immense.

All druggists have a big supply  
of it and report a big demand.—  
Adv.

We have it—  
or will get it

## SPECIAL

Knit Vests  
3 for \$1

An extra value for Saturday—  
women's light spring weight knit  
vests with bodice top and tailored  
shoulder straps; pink and blue;  
sizes 34 to 44. Special tomorrow  
at 3 for \$1.

—Rankin's, Third Floor.

Children's  
Taffeta  
Frocks

Up to the minute with mother's  
Spring styles, they are low belted and  
trimmed with ruffles, shirring and  
laces. Sure enough they are gay as  
Springtime itself, and are designed by  
a famous juvenile artist. \$10.50,  
\$12.50, \$13.75, \$15.

STRAW HATS of fine straw, leg-  
horns, milans, etc., cute little bonnet  
shapes. \$2.50, \$3.75, \$5 and \$5.75.

—Rankin's, Third Floor.

Scallops, Flares, Frills  
in New Silk Gloves

French designers are still supreme in Gloves—as is  
proven by the new short, one-button glove with scalloped  
flare cuffs, the interesting part being the fact that while the  
hand may be in beige color, the  
cuffs are in American Beauty,  
Green, Rose, Gray, Blue, Coral,  
etc. And the 8-button and 16-but-  
ton gloves show French influence  
with ruffled decorations, princi-  
pally at wrist.

\$2.50 to \$4.50

"Shimring" Blouses

Wholly delightful are Blouses of the new mater-  
ials called "Shimring." Can't describe it, but it gives  
a mottled effect. The overblouses have Jenny necks  
and cord ties. \$19.50.

Internationally  
Famous Migel Sports  
Silks

You must have heard much al-  
ready about Pom Pom Silk, Folly  
Thru Crepe, Rippo Fan-ta-si and  
plain Fan-ta-si, Moon Glo Satin  
and Lustre Spun. They are Migel's  
offerings for Spring. In high col-  
ors. Per yard.

\$4.00, \$5.00, \$5.50

Pliant, Luxurious  
Spring Woolens

Varied and lovely fabrics, Satin  
Twill, Poirer Twill, Velvo knit,  
Satisfino Crepe and Hair Line  
Check Poirer, five of Gar-  
field's novelty wool creations  
for dresses, skirts, capes and  
sports wear. See them. Per  
yard.

The very day you start to use Calumet Baking Powder your

baking expenses reduce. The price of Calumet is not the only reason for its economy—it's the great leavening strength it possesses—the unfailing results that are always experienced when it is used, that's what counts.

Never use heaping spoonfuls when you bake with Calumet—it isn't necessary because one spoonful of Calumet does the work of two of many other brands.

Why should you run the risk of spoiling your bakings by using a leavener that has not proven its merits—that may mean success today and failure tomorrow? Don't experiment—use Calumet. It makes more bakings—goes farther and lasts longer. Its superior quality has stood out above all other baking powders for many years.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce cans instead of 16 ounce cans. Be sure you get a pound when you want it.

EVERY INGREDIENT USED OFFICIALLY APPROVED BY U. S. FOOD AUTHORITIES

### Realtor's Auxiliary

Two new committees were named yesterday at the usual monthly business and social session of the Board of Realtors' auxiliary which met with Mrs. J. Wiley Harris and Mrs. Frank Harris at the home of the former, 506 East Fifth street.

The spacious living-room of the Harris home was a cheerful spot with a fire glowing on the hearth and with valentine-red poinsettias and smilax used in decorative effect. The business session was short, the membership committee appointed was Mrs. William Salisbury, Mrs. Freeman Bloodgood, and Mrs. Harry Williamson while the calling committee was Mrs. Everett White, Mrs. Asa Hoffman and Mrs. Frank Harris, the latter to act also as publicity chairman.

Mrs. W. B. Martin was welcomed as a new member, after which a short program was given. Eleanor Young Elliott spoke on "Santa Ana from a Newspaper Woman's Standpoint" after which Miss De Etta Miller played a number of piano selections, opening with "Garden of Dreams" and following that number with many which her listeners called for.

After an entertaining guessing contest the two hostesses arranged small tables very attractively with dainty linens and gay little valentine place cards and served chicken salad wafers, little cakes and coffee.

Enjoying the afternoon were the hostesses, Mrs. Frank Harris and Mrs. J. Wiley Harris, Mrs. Frank C. Pope, Mrs. H. S. Pankey, Mrs. Carl Mock, Mrs. Asa Hoffman, Mrs. Everett White, Mrs. W. L. Salisbury, Mrs. Freeman Bloodgood, Mrs. C. N. Grace, Mrs. Harry Williamson, Mrs. F. E. Russell and Mrs. Stanley E. Goode.

### Ebbl Travelers

This week's meeting of the first Travel section of the Ebbl was held at the hospitable home of Mrs. George S. Smith. Mrs. Smith was to have been assisted by Mrs. H. R. Bristol of Owensmouth, but it was greatly regretted that she was unable to be present on account of illness.

The members, who numbered fifteen, gathered at one o'clock around a beautifully appointed luncheon table, and were served with a most appetizing menu, consisting of chicken and its delectable accessories. The table was centered with a low bowl filled with delicate sweet peas.

During the afternoon the members enjoyed hearing an interesting travel article on Egypt, the present including the hostess and Mrs. J. W. Bishop, J. P. Baumgartner, Stephen Ross, Mary Heathman, H. C. Dawes, T. E. Stephenson, A. W. Ames, E. B. Smith, L. W. Van Cleave, W. L. Tubbs, L. J. Carden and C. S. Kendall.

### Household Economics

Mrs. Frank Preston, Mrs. Jack Wiley and Mrs. Floyd Spencer will be joint hostesses at February's meeting of Ebbl's fifth section Household Economics. Tuesday at a 1 o'clock luncheon to be held at the home of Mrs. Preston, 525 South Ross street.

Members are expected to present a household hint and also to be prepared with thimble and needles for sewing. Those having clothing that might be remodeled for a 3 year old lassie are asked to bring it. All finding it impossible to be present are asked to telephone Mrs. Preston, 2409 W.

## GRANTS FATHER PROBATION FOR SECOND TIME

With his wife and four young children seated behind him in the courtroom here, Dennis Weaver, charged with violating his parole, previously given after conviction on a grand larceny charge, was today given another chance to stay out of San Quentin and remain with his family.

Superior Judge Z. B. West placed him on probation a second time, after prominent Garden Grove citizens had interceded for him and testified to his ordinarily good behavior.

First granted probation some months ago, after pleading guilty to grand larceny in connection with the looting of an oil well in Santa Ana canyon, Weaver again came to the attention of the authorities a few days ago when he was arrested at Garden Grove in a billiard hall brawl. The district attorney's office placed the matter of alleged parole violation before the court. Officer W. B. Hale of Garden Grove today testified to the billiard hall incident and his arrest of Weaver. The defense, however, introduced a number of character witnesses, whose testimony, it was admitted, impressed the court with Weaver's good standing in his community.

In granting probation, the court charged each witness with a personal responsibility in the case, and each responded that he would use his influence to keep Weaver out of further trouble, or would report any further violations.

Weaver appeared much affected by the court's decision to grant him leniency a second time. He shook hands with Judge West and various officials and witnesses, expressing his gratitude.

COSTA MESA BOY BETTER. COSTA MESA, Feb. 8. — William Middleton, son of Mr. and Mrs. W. W. Middleton of this city, former Register carrier boy, was taken to the county hospital Wednesday. His condition today was said to be slightly improved. The boy was taken violently ill some time ago with typhoid fever.

## BOLSHEVISM IS FAILURE, S. A. CLASS TOLD

Junior college students of political science today were enthusiastic in their comments on a lecture given before their class this morning by Joseph Roucek, a native of Czechoslovakia, formerly a student at the University of Prague and now attending Occidental college at Los Angeles.

In what students termed one of the finest lectures they had ever heard Roucek described European political conditions. First he gave a brief discourse on political history of his own country and then told of present conditions.

"Bolshevism is a failure," he stated, "popular government has not worked. Social Democrats find it much harder to run a government than to criticize it. Militarism is returning."

When asked for a possible solution, he declared himself at a loss to answer. "The League of Nations is weak and cannot work," he continued. "Hated and existing political boundaries in Europe are being changed."

"You must live in Europe to appreciate what you have here," he concluded.

## FARM BUREAU OFFICIALS RE-ELECTED

All of the present officers of the Orange county farm bureau were today again filling their respective positions for another year as the result of the annual election held yesterday in the office of the farm advisor.

Those re-elected were: President, J. A. Smiley of Orange; vice president, S. W. Stanley of Tustin; treasurer, John Osterman of Santa Ana; secretary-manager, A. M. Stanley of Santa Ana; state representative, E. E. Campbell of Orange; representatives to the Associated Chambers of Commerce, J. A. Smiley and A. M. Stanley.

The regular committees for the year will be appointed later by the president.

Preliminary plans for the Orange county fair were discussed and it was decided that the farm bureau would pledge all of its support and resources to the exposition again this year. A. M. Stanley will be secretary-manager of the fair.

## Beach Girl Case Man Waives Quiz

Waiving his preliminary examination in Justice J. B. Cox's court, Everett O'Dowd, 30, of Huntington Beach, was today arraigned before Superior Judge R. Y. Williams on a statutory charge.

Next Friday at 9:30 a. m. was the time fixed for entering a plea to the charge. The case will be heard before Judge F. C. Drumm, who was out of town today.

O'Dowd is accused of an attack upon a 15-year-old girl at Huntington Beach. Officers claim that he had admitted his guilt and expects to file a formal plea of guilty in court. In Justice Cox's court today, however, O'Dowd appeared doubtful as to what course he would pursue.

## CURE FOR ASTHMA FOUND IN PARIS

PARIS, Feb. 8.—Within ten years every hospital and sanatorium will be equipped with an "inhalatorium" for curing asthma, bronchitis, laryngitis and other maladies of the respiratory organs. Dr. Ron asserted today in referring to a unique establishment which is operated in the town of Tourcoing. The patients place tubes in their mouths inhaling a jet of hot steam. This steam cleanses the lungs. Dr. Ron asserts that the inhaling method is a sure cure which will soon become world-wide, revolutionizing present methods.

## You and Your Friends

Please Phone or Mail Items

Dr. Sarah G. Husemiston of Porterville today was a Santa Ana visitor, called here by the death Monday of her brother, J. H. Gulick, 1702 Spurgeon street.

George H. Brantel of 2212 North Main street left yesterday on the Santa Fe Navajo, his destination being Ainsworth, Neb. He traveled via Kansas City.

J. E. Turner, of 1017 North Van Ness avenue, was a traveler over the Santa Fe yesterday for Waverly, Ill. Mr. Turner used the Missionary train.

E. Shipman of Laguna Beach departed on the Santa Fe California limited today, going to Cleveland, Ohio.

Walter L. Somerby, Louis Piethe and E. G. Sharpley, of the local Southern Pacific office, enjoyed the radio show at the Biltmore in Los Angeles last evening.

Sam Kelly, who has been visiting in Santa Ana and vicinity, left here on Wednesday over the Southern Pacific on his return journey to his home in Minneapolis.

Theo. N. Hansen will leave Santa Ana tomorrow for Cincinnati, using the southern route of the Southern Pacific via New Orleans.

Edward McWilliams of the bond department of the First National bank has gone to San Francisco for a brief visit. He left last evening over the Southern Pacific.

Mrs. M. Eltonstone of Newport Beach expects to leave tomorrow over the Southern Pacific for Bisbee, Ariz.

Mr. and Mrs. John A. Thompson of Hastings, Neb., who are making an extended tour through California, are guests this week of the T. T. Osborn family, 1501 Bush street.

Mrs. Anna Hurd of Pontiac, Ill., is here for an indefinite visit with her son and daughter-in-law, Mr. and Mrs. Frank Hurd of Santa Ana, R. D. 4.

## RE-ELECT MEMBERS TO ORCHARDS BOARD

The board of directors of the Villa Park Orchards association today was continuing in office as a result of their being re-elected at the annual meeting yesterday, held at the packing house in Villa Park, H. D. Nichols, secretary-manager of the association, announced.

Willard Smith is president of the board, and W. A. Knuth is vice president. John Ragan, J. V. Meehan and V. Blankmeyer are other members.

The association was made a stock corporation at yesterday's meeting, and it was decided to assemble the crop in four pools instead of two, as at past. A revolving fund was adopted by the association, to go into effect at once.

Approximately 200 men, women and children attended the annual dinner of the association yesterday noon. Addresses by H. S. Reed and A. F. Bartholomew of the experiment station at Riverside, and a resume of the year's activities by L. D. Palmer, manager of the Orange County Fruit exchange, were meeting features.

## PIANISTE, TENOR ON KFAW PROGRAM

KFAW broadcast a program last evening which was presented by Miss Leonora Tompkins, pianiste, and Arthur Smith, tenor. Both artists offered numbers of high quality marked by perfect interpretations.

Miss Tompkins played "La Filouise" with splendid understanding and technique, while Smith rendered several solos disclosing a well-trained tenor voice of rare sweetness. "Sweet Mother of Mine" and "When Irish Eyes Are Smiling," as sung by Smith, evoked several telephonic congratulations from listeners-in during KFAW's hour.

An entire program to be given by Tustin artists will be announced at an early date. This program is being arranged by Smith.

Pure Arrowhead Spring and Distilled Water—1 or 5 gallons. Wholesale and Retail—Arrowhead Spring Co., Warehouse, 311 N. Broadway, Santa Ana.

## DIXIE

HAS AN OPENING FOR ONE OR TWO MEN

to take charge of the super part of our Anaheim station at Los Angeles and Broadway.

The super part includes wash-racks, grease-racks, steam-rack, Batteries, Tires, Tubes and Accessories — of all kinds. —

The right men will be offered a wonderful proposition

FORMERLY KNOWN AS

NOW KNOWN AS

## These Two Cartons Contain the Same High-Grade Product

Every discriminating housewife should know that a competitor has secured a temporary Court injunction restraining us from using our own name PECO. The case is being carried to a higher court, but, in the meantime, we have been compelled to select a new name. Pending final Court action, therefore, PECO will be known as

**WILSO**

The only change is in the name. Otherwise, the new cartons are the same in color and design. Most important, the product is EXACTLY the same—the highest grade on the market. It is pure and wholesome—unexcelled for every table or cooking purpose. Do not allow anyone to substitute some other brand merely because we have been temporarily enjoined from using our own name. When you want PECO—the Creation in Goodness—you will get it, but under the name WILSO.

**WILSO is PECO**

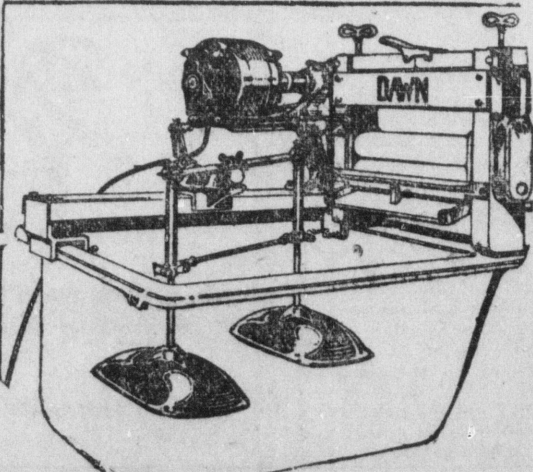

**Our Guarantee** Wilso & Co., Inc., GUARANTEE that WILSO will be exactly the same as PECO. Positively no change will be made in the product. The Court injunction affects the name only—not the quality. Only the purest and most wholesome ingredients are used in the manufacture. It contains no animal fats.

# In the Realm Of Society

**Fourteenth Birthday Is Made Happy Occasion**

Miss Marjorie Pollock was the happy honoree at a birthday party early in the week when a group of young friends gathered at her home, 1113 West Fifth street to aid her in celebrating her fourteenth birthday.

The valentine motif was used in all decorations, and festoons of red hearts led from the electrolights to the corners of the rooms, the same motif was apparent in the refreshments which were served as the merry evening of games and music drew to a close. The big birthday cake was the center of interest and Miss Marjorie had the pleasure of cutting and distributing it.

Guests asked to share the merry evening were Patricia Kennedy, Helen Hill, Margaret Whitson, Wilma Hoy, Teresa Bement, Lavinia Compton, Florine Pollock and Marjorie Pollock; Marion Nau, Lloyd Benson, Charles Chatlain, Leslie McDonald, Eric Twist, Oliver Halliday, Ernest Kauffman and Bruce Vegeley.

**Anaheim Clinic Staff Surprises Medico And His Bride**

Prepared to welcome Dr. and Mrs. H. A. Johnston of Anaheim, as their evening guests, at their home, 510 East Seventeenth street, Dr. and Mrs. J. Luther Maroon were considerably surprised last evening when they were called upon to greet the entire staff of the Johnston-Wickett clinic who took the opportunity to call and extend happy wishes and congratulations upon their recent marriage.

The affair was well planned by the guests who had even the entertaining features of the evening arranged and gathered around the piano for chorus singing with Mrs. Johnston playing the accompaniment. Miss Dorothy Maroon, young daughter of the host, also gave several musical numbers and some very clever readings. "Bunko" offered hilarious amusement and at a late hour refreshments of ice cream and wafers were produced and served with hot chocolate which Mrs. Maroon prepared.

The guests included Dr. and Mrs. H. A. Johnston, Dr. and Mrs. H. D. Newkirk, Dr. and Mrs. A. Childers, Dr. J. Robinson, Dr. Bebecca Rathe, Mrs. Henle, and the Misses Alice and Ruth Pannier, Adeline Curtis and Marie Tallaksen.

The marriage of Dr. John Luther Maroon and Miss Lucy Wood of Anaheim was a leading event of the mid-winter and those who gathered to greet them last night have been closely associated with both in their work at the clinic, for Mrs. Maroon as Miss Wood was for five years superintendent of nurses at Anaheim hospital and was prominent in all club and social activities in that city. She was president of the Anaheim Business and Professional Women's club, resigning that position as well as her superintendency when she became the bride of Dr. Maroon one of the community's leading physicians.

**Current Events**

**SECOND SECTION.**  
Organized to keep in touch with important events of the day, the second section of Current Events which met yesterday at the home of Mrs. Isabel Tucker on French street, has the good fortune to have for its leader, Miss Jennie Lasby, one of the city's most brilliant women.

Yesterday afternoon Miss Lasby gave a resume of the outstanding happenings of the past month in foreign countries, opening with a discussion of the present situation in China where the adoption of the constitution, while given no great prominence in world news, was of vast importance. Miss Lasby declared that state rights were given into the hands of a central government and the president elected by members of the two houses. Two great policies were being put into effect, that of peace and of straightening up financial affairs.

The political situation in Great Britain with the appointment of labor leaders, Ramsay MacDonald to the premiership, was discussed and its effect on the capitalists. Renewed relations between Spain and Italy were sketched as was the situation in Germany where funds destined for starving children often went into the pockets of railroad owners and shippers, according to the speaker's statement.

Home affairs including the Mellon tax reduction plan were discussed and the talk brought to a close with an impressive tribute to President Wilson.

Mrs. Eugene Hoff was the second speaker and presented a most interesting paper on the situation in Mexico, where she declared "Revolution is a habit." Taking as her premise the fact that Mexico's natural resources render her peculiarly independent of other nations, Mrs. Hoff outlined the present disturbances and the causes leading up to them and their probable outcome in a most entertaining manner.

"Teapot Dome" will be the subject for the next meeting.

Plenty of good, pure, fresh water from our own wells at South Park Homesites on South Main Street. Everybody welcome.

**WILCOX OPTOMETRIST**

Says—  
Money spent on children's eyes will draw big dividends.

515 W. 4th Phone 805-W

**Many Full Length Back Panels Are Featured On Smart New Frocks To Be Shown This Spring**

A feature of some of the smart spring frocks is a full length back panel, usually perfectly plain from the top of the dress to its hem. Sometimes this panel is attached at the shoulder seams. At other times it is attached below a high empire yoke.

The yoked model sketched is a pretty little afternoon dress whose high yoke and wide flounces show the new spring silks to advantage. As straight as it can possibly be, the second gown may be worn with a belt or without one and has long tight sleeves.

**Surprise Is Planned By Canadian Group**

Pleasant details of a birthday surprise will long be remembered by Miss Jessie Millar who was the happy "victim" of a group of Canadian friends this evening at the home of her sister, Mrs. A. H. Teal, 2525 Santiago street.

The little group of merry-makers succeeded admirably in keeping their plans secret and reached the Teal home with no one suspecting their designs. The Teals and Miss Millar rose to the occasion however and a most enjoyable evening was spent with lively games and contests.

Gathered around the piano where Miss Rosalyn Dawes played their accompaniments, the guests sang all the old familiar songs. Late in the evening the birthday cake was brought in and was served with other refreshments provided by the thoughtful merry-makers. Enjoying the evening with Miss Millar and Mr. and Mrs. Teal were Mr. and Mrs. J. A. Mahr, Mr. Albert Pengelly, Mr. and Mrs. Warren Freeman, Mr. and Mrs. J. W. McKim, Mrs. S. L. Dawes, Miss Rosalyn Dawes and Mr. and Mrs. Jesse Albright.

**Missionary Society**

Opening with devotional exercises and presided over by Mrs. W. B. Snow, the Woman's Home Missionary society of the First M. E. church held an interesting meeting Wednesday afternoon.

Pleasing guitar selections were given by Miss Marjorie Arnold. Mrs. Snow expressed regret that Mrs. Northrup had been forced by illness to resign her place as conference corresponding secretary. Mrs. W. C. Baker reviewed the current copy of the Missionary magazine and told of work being done in various homes and institutions particularly the David and Margaret home at La Verne, where plans are being made for a new building.

Mrs. John Clarkson touchingly read a poem, "The Cry of the Mother" which was most appropriate to the study subject. Mrs. S. M. Davis gave a synopsis of the study book, emphasizing that religious education of the American youth is the great task facing the Christian world and church.

Mrs. A. H. Teal gave an account of the plan for religious training in the schools, suggested for Santa Ana a few years ago, a plan whereby credit systems similar to those successfully used in Colorado, should be employed. Mrs. C. W. Burns reported the conference meeting held last Tuesday in Los Angeles and attended by 600 women and eight national officers.

**Mothers' Circle**

On Wednesday afternoon February 13 at 2:30 o'clock, a valentine party is to be given at the home of Mrs. Merle Morris, 1006 French street in honor of the retiring officers of the Mothers' circle (formerly known as the "Cradle Roll Mothers' circle") of the First Christian church. All members are expected to join in a pleasant afternoon.

**Music Section**

Monday, February 11 at 2 p. m. members of the Music section will meet with Mrs. T. A. Winbigler, 207 East Ninth street, to enjoy a program on "Folk Music and National Characteristics."

Mrs. C. T. Wells will have the paper and musical numbers to illustrate it will be given by different artists of the city. American, English, Italian, Spanish, Russian and other countries will offer examples of their folk music.

**Betrothal Announced At Afternoon Party In Davis Home**

A delightful afternoon was spent earlier in the week by a group of friends who gathered at the E. L. Davis home, 616 West Third street and heard the formal announcement of the betrothal of the daughter of the home, Miss Irene Davis, to Roy A. Cumpston of Glendale.

However the guests had suspected that some such announcement was to be made and anticipated it a little by planning to shower the bride-elect who thus received many lovely gifts for her little home-to-be.

Hearts were in evidence in all the decorations, emphasizing the valentine season as well as the nature of the party. Refreshments of raisin and nut sandwiches, pickles, macaroons and fruit punch were served and there were fifteen guests present to enjoy the affair and shower happy wishes on Miss Davis, whose wedding will be an event of the very near future.

**Series of Functions Brought to a Close With a Luncheon**

Concluding a series of social affairs with a luncheon Mrs. Clarence A. Gustlin who has presided charmingly over the succession of happily planned functions, was hostess again Wednesday when a group of thirty close friends of long standing were assembled at the Gustlin home on North Main street.

Mrs. Gustlin had chosen a decorative scheme of orchid and yellow for the entire series which opened some ten days ago with a bridge luncheon. Her flowers were yellow daisies and violets in harmony with the prevailing color effect. Her cousin, Mrs. George Cole of Riverside was present at each affair and was gladly greeted by the friends of her girlhood days when as Miss Vera Heathman, her home was in this city.

The second event of the series was a bridge tea presented last week when seven tables were employed for the game, and attractive gifts were awarded Mrs. Clarence Crookshank and Mrs. Angus J. Crookshank, holding high and second high scores.

**Every Girl's Club**

Opening according to custom by singing "America," the Julia Lathrop Every Girl's club held a most interesting session Wednesday with the newly elected president, Mary Bruner taking the chair.

Miss Bruner introduced her new staff of officers, Ruth Whitford, vice-president; Virginia Brannon, secretary; Cecelia Mudge, treasurer; Tusthelda Kauffman, yell leader and Virginia Vian, reporter. Miss Genevieve Tillery, domestic science teacher, had the program in charge and introduced Miss Bertha Stein of the high school domestic science department who held the interest of the girls many of whom are taking that course.

Miss Edith Cornell sang a very charming solo to the piano accompaniment of Miss Abby Chapman after which Miss Helen O'Brien gave a short talk on the life of Ex-President Wilson. A letter from Julia C. Lathrop thanking the Every Girl's club for flowers sent her at Christmas time, was read aloud.

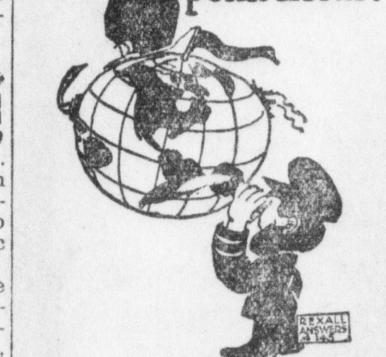

**Little Light Bearers**

A "Mother Goose" party will be enjoyed by the Little Light Bearers of the First Presbyterian church when they meet at the church tomorrow afternoon at 2 o'clock. Mrs. Bruce Monroe will tell the missionary story.

You'll find the style of barrette best suited to your use in the new line we are showing. Metal barrettes in silver or gold finishes are here at 10c and 15c.

Other styles feature vari-colored brilliant settings in many styles and shapes—hand decorations too, are finding favor in the larger shapes—priced at 25c and 50c.

Why does the compass point north?

—because there exists in the north polar region a point that acts as an electric magnet. This "magnetic pole" attracts the compass needle. North, south, east and west.

**Quilting Club**

Mrs. Frank Higgins of Orange was hostess yesterday to the Auld Lang Syne Quilting club at her home on North Pine street, where the members began quilting early and finished the quiltly during the day.

At noon a lovely luncheon was served and during the afternoon several musical selections were played, but the affair was darkened by a telegram which brought torado.

Mrs. Higgins the sad news of her father's death in Florence, Colorado.

Members of the club who were present were Mrs. Fred Hampton and son and Mrs. W. B. Hampton of Santa Ana, Mrs. Oscar Freek and daughter of Anaheim, Mrs. W. O. Higgins, Mrs. H. Moberly, Mrs. S. M. Higgins, Mrs. Le Roy Valentine and daughter, Mrs. Frank Maroney and two daughters, Mrs. Olive French, Orange, and Mrs. Esther Kovari, from Denver, Colorado.

**VITAL FACTS FOR WOMEN**  
Sooner or later almost every woman is brought face to face with the fact that she is a victim of some weakness or ailment peculiar to her sex. It may be the young woman suffering from pain or irregularities, a mother who has brought on some weakness or displacement from overwork, or the middle aged woman passing through the most critical period of her life. For each of these trying periods Lydia E. Pinkham's Vegetable Compound has proved the greatest boon ever given to women, and there are women living in every town and city in the country who testify to its value.

## SIN HOUNDS' FEET TO HAVE BLISTERS

CHICAGO, Feb. 8.—"Chicago is entering upon its driest era and the feet of the sin hound shall blister ere he finds the drink he seeks."

United States District Attorney Edward A. Olson gave out this information today. He says enforcement of the law is the order of the day; that the 98 per cent of the population shall rule and that the 2 per cent lawless will be driven from the city, most of them to prison. The announcement had the indorsement of Mayor Dever, Chief of Police Collins, State's Attorney Crowe and other officials at the annual dinner of the committee of fifteen. It was a message that promises woe for the bootlegger, the beer runner and the brewer that have been running night and day.

## PLUMBER COMMITS SUICIDE WITH GAS

OAKLAND, Feb. 8.—With a paper carton over his ear and a gas tube in his mouth, the body of Charles L. Sturm, 60 years old, proprietor of a plumbing shop at 360 Tenth street, was found by Charles Sieberling, a nephew, when he stepped into the shop on business. Sieberling placed the body in his car and took it to the Oakland emergency hospital. The aged plumber was pronounced dead on arrival at the hospital. According to neighbors of Sturm, he has been despondent over ill health for the past three weeks. He resided at 658 Arimo street, Oakland. The body is at the morgue.

## Delhi Schools Open After Disease Scare

TURLOCK, Feb. 8.—After an enforced vacation of more than a month, the schools of Delhi have been reopened and the Parent-Teacher association has held its first meeting of the year. Schools were closed and all public gatherings banned by the authorities in an effort to curb the spread of diphtheria. The Parent-Teacher association is making plans for serving hot lunches and milk.

## PARIS TO BUENOS AIRES BY AIR LINE

PARIS, Feb. 8.—Money backing has been promised by the French government for what is planned to make the greatest airway in the world in volume of fast mail and freight carried. It will cover 7000 miles, from Paris to Bordeaux, Lisbon, Casablanca and Dakar, and thence across the South Atlantic to Pernambuco, Rio de Janeiro and Buenos Aires. At first, mail and freight will travel from Dakar to Pernambuco by fast steamer. But designs are already drawn up for huge multi-engine seaplanes that will enable loads to be air-borne all the way from Paris to Buenos Aires.

## AUTO IS DRIVEN BY CHARCOAL GAS

LYONS, France, Feb. 8.—An automobile propelled by gas generated through the combustion of charcoal was given what was pronounced as a successful test here today in the presence of a large number of government officials and technical experts. The machine traveled sixty miles on thirty-three pounds of charcoal costing 25 cents or less than one-fourth the cost had gasoline been used. The charcoal gas is generated in a compartment built in the rear of the body of the car. The process was invented by an Alsatian engineer named Imberl.

## ORANGE REALTORS HAVE GOOD MEETING

ORANGE, Feb. 8.—The Orange Realty Board, of which Glen Coe is president, and Howard Williams is secretary, met at noon yesterday at Miles' cafeteria. Mr. J. W. Jennings, field representative of the California Real Estate association, who was to have been present and outline for them the multiple listing system, for some unknown reason did not arrive. He was evidently on his way here, as there were long distance phone calls for him here at Orange. Thursday was agreed upon as their regular weekly meeting day. No business was transacted. The members enjoyed the meeting immensely, but were disappointed over the non-appearance of Mr. Jennings.

## ANNIVERSARY CELEBRATED BY CHURCH

ORANGE, Feb. 8.—The fiftieth anniversary of the First Presbyterian church of Orange is being commemorated here. In honor of this, a service was held last night at the church. The program was as follows:

Hymn and Scripture reading.  
Prayer and anthem by choir.  
Historical sketch of the church prepared by Mr. and Mrs. Samuel Amor and read by Mrs. Amor.  
Chorus by intermediate school girls.  
Greetings from presbytery by Rev. William E. Roberts of First Presbyterian church of Santa Ana.  
Tonight there will be a banquet for members and former members of the church given in the dining rooms of the church at 6:30 p. m., followed by a welcome to the returning members and guests.  
Response will be given by Theodore Laidly and Clyde A. Lyon.  
Following this were greetings from Presbyterian pastors of neighboring towns.  
At 8 o'clock the people will retire to the auditorium for the anniversary service. This will consist of:  
Hymn and Scripture lesson by Rev. William S. McDougal.  
Trio, selected, Mrs. Pister, Mrs. Carlson and Mrs. Price.  
Prayer by Rev. Thomas Holmes Walker.  
Solo by Dr. B. E. Garrison.  
Anniversary sermon, Rev. Campbell Coyle, D. D., pastor of Highland Park, Los Angeles.  
Hymn and benediction.

## Incubator Firm Is Formed in Sonoma

SONOMA, Feb. 8.—The new company being formed to acquire the patent rights of Kitchen Brothers, inventors of an incubator, which hatches baby chicks earlier than any known device, and to manufacture the incubators and patented parts here in the Sonoma valley have already had \$10,000 worth of local capital subscribed. The Kitchen Brothers have had a small incubator manufacturing plant in Sonoma for the past two years.

## Suspect in Mail Theft Is Caught

SACRAMENTO, Feb. 8.—In the arrest of Robert Solez, who was released from the Federal prison at McNeil Island only two weeks ago, the police and Federal authorities believe they have the man responsible for a series of mail thefts from the mail terminal at the Southern Pacific depot. Solez was arrested by railroad police in the act of opening a parcel post package that had been stolen from a truck at the station.

## BUSINESS MEN AT LA HABRA TO MEET

LA HABRA, Feb. 8.—The annual meeting of the Business Men's association will be held tonight at the banquet rooms of the Baptist church. The women of the Dorcas society of the church will do the catering. This is woman's night and a big attendance is anticipated. The La Habra orchestra will furnish music during the dinner. Rev. Walter Thornton will speak on his favorite topic, "being a booster." The election of officers is another important business that will be transacted.

Mrs. Richard Mattinson left Wednesday evening for San Diego where Mr. Mattinson is engaged in construction work. Mrs. Mattinson received word that her husband had fallen and hurt himself severely.

Mr. and Mrs. Vernon Young entertained in honor of Archie Cooke and Vernon Young in celebration of the birthday anniversaries of the two young men. The affair was held at the home of Mrs. Young's parents, Mr. and Mrs. Christ Schneider. Games to test the activity of the minds of the guests were played and prizes were given to those of the most nimble wit. Mrs. Sucksdorff, Miss Emily Young, George Young and Archie Cooke, Mrs. Sleeper and Vernon Young were the winners in this contest. A delicious three-course supper was served. Hostesses were Mrs. George Young, Mrs. Vernon Young, Mrs. Schneider and Mrs. Babe Nelson. Guests present were Mr. and Mrs. Clarence Froome, Mr. and Mrs. Archie Cooke, Mr. and Mrs. Lloyd Sucksdorff, Mr. and Mrs. George Young, Miss Nellie Sucksdorff, Emily Young, Mrs. Babe Nelson and Mr. and Mrs. George Young.

Plan Valentine Party  
A very pleasant gathering was had at the home of Mrs. Pearl Beer on East Florence street on Tuesday. The afternoon was spent in needle work, visiting and music. A dainty collation was served late in the afternoon. A valentine party was planned by this club which is shown as the Two U's for next week at the home of Mrs. Charles C. Man of Alamo street May 1. One new member was admitted to the club, Mrs. C. Fletcher of South Hiatt street. Members present were Mrs. Sarah Elder, Mrs. Dorothy Morrison, Mrs. Ida Clark, Mrs. Luella Swingle, Mrs. Edith Robinson, Mrs. Belle Lowen, Mrs. Walter Pierre, Mrs. Nancy Kerr, Mrs. George Beer, Mrs. William Crawford, Mrs. Charles Chapman, Miss Lathia Woltersen.

A new Christian Science society

has been formed in La Habra and will hold services in the new woman's clubhouse. The first service will take place on the first Sunday in March, and will hold weekly Sunday and Wednesday evening services.

La Habra P. T. A. Meets  
148 members of the local Parent-Teachers' association were present at the regular meeting on Wednesday at the Washington street school. The interest taken by the teachers and membership chairman in sending out circular letters was responsible to a great extent for this large attendance. The regular business was conducted after a fifteen minute Round Table discussion by the mothers and teachers. These were con-

gregated in groups around each teacher and grade mother. Needs for the new Lincoln school rest room was reported and ordered purchased by the P. T. A. Mrs. E. L. Leuhm, Mrs. Roy Barker, Mrs. Bruce Stanford, and Miss Helen Hibbs were appointed to attend to this matter. A ways and means committee consisting of Mrs. A. H. White, Mrs. J. B. Chaffey, and Mrs. Stanford, was appointed. A report by Mrs. W. M. Snow on the convention at Huntington Beach was received. Mrs. Winifred Dryden then gave a very interesting program consisting of reading by her class in public speaking, and a talk by Miss Emma Von Grunigian on her European trip last summer. The sixth grade mothers were hospital committee and refreshments were served in the cafeteria room.

Mrs. L. L. Chandler was hostess at a delightfully informal one o'clock luncheon at the Chandler ranch home on Wednesday. A centerpiece of pink and green flowers and ferns, adorned the daintily arranged table around which were gathered the honorees, Mrs. Jack McCloud, the Misses Waddie, and Belle Sutherland all of Vancouver, B. C. Mrs. Logan Jackson, Mrs. Edd Fullerton, Mrs. A. Fullerton of Orange, Mrs. F. E. Proud, Mrs. Edd Brown, Mrs. E. L. Leuhm. The visitors from the north have been spending the winter in Southern California, and have been visitors at different times at the homes of Mrs. Chandler and Mrs. Proud. The five women were school chums in the old home in Ontario, Canada. Mrs. McCloud leaves for British Columbia the first of the week and the luncheon was a farewell party for her.

—While looking for news of variety and value, don't overlook the Classified pages of the Register.

—Women's handkerchiefs at 5c each will be among the many specials offered tomorrow by a department store.

# Is Man King? Should Say Not!

Ninety per cent. of purchases made in stores today are either made by women direct, or are influenced by women! Look over the Advertising News!—how much of it is addressed to men? Mighty little, and even such minority is put there partly because the merchant hopes the woman understands that he is trying to talk to her "king," and will she please speed things up a little.

Women read the Advertising News regularly—and men can learn more about what is going on by doing the same. And men will also learn why women are such good judges of values and know where to go for the right thing—because Advertising News is the source of buying information!

## Why do you eat Bran?

TO FIGHT CONSTIPATION—the most dangerous condition your system can become chained to—to get free from bleary biliousness, dull headaches, nausea—etc., etc.!!!

Rid yourself of this dangerous condition—or start "slipping" and become a prey to any one of the most dreaded human ailments which have their beginning with constipation and toxic poisoning!

Fight constipation as you would fight fire! Fight it with bran—Kellogg's Bran—BECAUSE IT IS ALL BRAN! Don't temporize! Don't waste time and health by going half-way! You need ALL BRAN; you need the bulk, the "roughage" of ALL BRAN, because it sweeps, cleanses and purifies!

REALIZE THIS—foods with a part bran content can only relieve constipation in proportion to the amount of bran they contain! If they are 25 or 50 per cent bran—you may get 25 or 50 per cent relief!

REMEMBER THIS—Kellogg's Bran is ALL BRAN and is guaranteed to give you positive and permanent relief if you will eat two table-spoonfuls daily, or as much with each meal in chronic cases!

Don't delay; don't fuss with half-way measures! You have too much at stake! All grocers sell—

**Kellogg's** *Look for this signature*

the original BRAN—ready to eat

## SEIZE ALLEGED BOOTLEGGERS TO YOUTHS

(By United Press Leased Wire)

RIVERSIDE, Feb. 8.—Fabricio Velarde, alleged bootlegger to a clientele which included a number of local youths, was in jail today, awaiting his preliminary hearing, while probe of a series of "wild parties" engaged in by boys and girls of this city continued.

It is reported that Velarde's alleged activities in selling liquor to local minors has resulted in at least ten Riverside high school students, boys and girls, appearing in the local juvenile court.

Ages of those involved are from 15 to 18 years, it is said, while some of the youths come from the city's best families.

The prosecution will base its case largely on the entries in a diary found on one of the girls said to have visited Velarde's home.

In it she tells of frequent trips there for liquor, in one instance mentioning three trips in one day.

## PRINCE INJURED IN STEEPLECHASE FALL

(By United Press Leased Wire)

LONDON, Feb. 8.—The Prince of Wales suffered a broken collar bone when he fell from his horse at the Billington steeplechase today.

His doctor said it is a simple fracture and that the prince probably will be able to ride again in a few weeks.

The prince was pulling his horse to a fence when the animal fell, throwing the prince upon one shoulder.

Staggering to his feet Wales was attempting to remount when an equerry rode up.

"I believe your highness has broken his collar bone," exclaimed the equerry, solicitously.

"Yes, you know, I believe I have," returned the prince.

COSTA MESA THEFTS.

COSTA MESA, Feb. 8.—Several petty thefts have been reported here during the past few days.

Mrs. S. A. Young of Santa Ana avenue and Twenty Second street reports the loss of several of her hens Tuesday night.

E. A. Schick also reported that some one took two rolls of rubberoid roofing material from the grounds on the Wilkinson tract where he is constructing a new house.

Although there were several other rolls of the material on the grounds at the time only two of the rolls were taken.

## Slaying Unsolved As Suspect Freed

TUSCALOOSA, Ala., Feb. 8.—

The murder of a young girl whose charred body was found in the ruins of a church near here last October became an unsolved mystery today.

Alfred Winchester, indicted for the murder, was acquitted by a jury here last night and authorities admitted their long investigation was at an end. The jury deliberated but a short time.

## ELECT PRESIDENT OF TUSTIN CENTER

TUSTIN, Feb. 8.—D. D. Field of this city was last night unanimously elected president of the Tustin farm bureau, to succeed William M. Belding, whose resignation was accepted at the meeting last night.

Will Hatch, local poultryman, was elected vice president to fill the vacancy left by the election of Mr. Field to the presidency. Mrs. George Brown was elected secretary of the organization to fulfill the position left vacant by the recent resignation of Sidney Saubey.

It is the plan of the local farm bureau to deal largely in the matters of spraying, dusting, and pruning of trees during the next few meetings and later take up the subjects of root diseases, water conservation, soil conditions and analysis.

After the meeting the members were entertained in the auditorium of the high school by moving pictures of farming conditions in various parts of the state and also a picture of the hunting of wild animals in Africa.

ACCIDENTAL WOUND IS FATAL TO YOUTH

SAN FRANCISCO, Feb. 8.—

Halstead Rainey, aged 13, son of Edward Rainey, secretary to Mayor James Rolph Jr., of San Francisco, died here last night from bullet wounds, accidentally self-inflicted.

The boy's mother had just entered her home yesterday after attending a community chest luncheon when she heard the report of a revolver.

She found the lad in his room, shot through the body. He was in a dying condition. He had been playing with an automatic pistol.

He was removed to a hospital but efforts to save his life failed.

NOVELIST ENDS LIFE

WHITLEY BAY, England, Feb. 8.—The celebrated English novelist Queenie Scott Hopper, committed suicide here today by slashing her throat with a razor, because she was unable to "think up any new ideas for stories."

## SUSPECT DUNLAP IN NEW L. A. SHOOTING

(By United Press Leased Wire)

LOS ANGELES, Feb. 8.—Search for Harry J. Dunlap, notorious "badge bandit," was renewed with intense activity today following another shooting charged to his list of crimes.

J. L. Edwards, 32, identified a picture of Dunlap as the man who shot him after he and a woman companion were held up late last night. Edwards was wounded in the arm.

The victim and his companion were in a parked automobile in the outskirts of the city when the bandit, acting in typical Dunlap manner, he said, held them up at the point of a gun and started searching their clothes for money.

"If you are going to shoot anyone, shoot me, not the girl," Edwards told the robber, who immediately complied, then disappeared in the darkness.

FARM BUREAU AT EL TORO TO MEET

EL TORO, Feb. 8.—The twenty-seventh anniversary of the organization of the Parent-Teacher Association of the local association Thursday afternoon.

Mr. Wright, principal of the school, presented the fifth grade in an arithmetic drill.

The birthday cake was lighted during the reading of the purposes and beliefs of the organization. The members present voted to buy needed athletic equipment for the school. Cake and punch were served after the business session.

The Farm Bureau will meet Saturday night at the school house. Important business will be discussed. Refreshments will be served.

Mrs. Juan Gless is seriously ill at her home here, a sudden heart attack being the cause. It is thought she is out of danger now.

Mrs. T. F. McDonald and several friends of Santa Ana, visited with Mrs. Harvey Bennett Thursday.

Mrs. and Mrs. H. A. Froelich were hosts to the Alf Trapp family Tuesday evening, when they turkey dinner, honoring the birthdays of Mrs. Froelich and John Trapp.

Miss Bertha Stitt, of Los Angeles, has returned to her home, after a pleasant visit with her sister, Miss Roberta Stitt, primary teacher.

Miss Mary Woodward, of Placentia, is a guest at the home of her aunt, Mrs. Milo Stevens.

Mrs. Dale Trapp, Mrs. E. L. Chandler and Miss Dollie Rodger shopped in Santa Ana, Thursday afternoon.

Designer and Designer Patterns for March, 1924, Are Now In

## MAN IS CHASED OUT OF COURT BY PUGILIST

DENVER, Feb. 8.—An expugilist started to "clean-up" a witness in a divorce case on trial in the second division of the County Court last week, and was making considerable headway when his sparring partner ran to the Justice Court and sought protection.

The fight occurred in the hall, at the termination of a dispute between Pearl B. Pasker and Charles Pasker over the custody of their small child. Pasker asserted his wife was intimate with the expugilist. The pugilist took the stand and denied the charge, and after the trial one of Pasker's witnesses "took a crack" at the alleged prizefighter. The pugilist came back with a rap on the nose which sent the witness looking for help.

## \$64,284.97 REMAINS IN TULARE TREASURY

TULARE, Feb. 8.—A balance of \$64,284.97 is in the city treasury at the present time, according to report made at the regular meeting of the City Council by C. W. Cobb, City Auditor and Clerk. This report is the first to be given under the provisions of the new city charter, which changes the fiscal year to correspond with the calendar year. For that reason the report covers only the past six months. During that period the receipts of the city totaled \$124,648.74.

Pure Arrowhead Spring and Distilled Water—1 or 5 gallons. Wholesale and Retail.—Arrowhead Spring Co., Warehouse, 311 N. Broadway, Santa Ana.

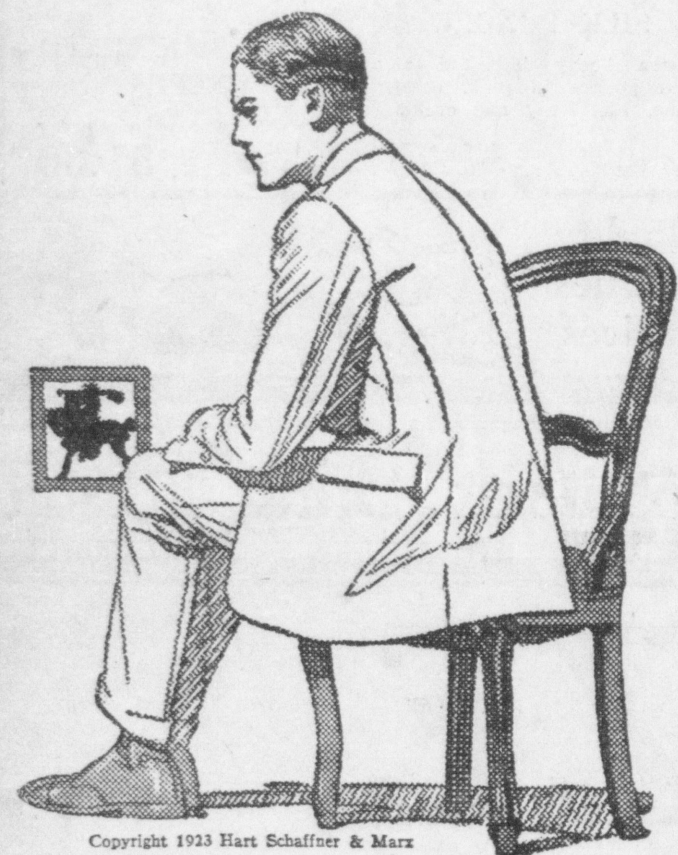

## Two Arrests In Lincoln Dry Raid

LINCOLN, Feb. 8.—Joseph Collins and Angelo Gontines of Lincoln were arrested last night on a charge of violating the Wright act, in a raid conducted by Sheriff Elmer Gum and deputies, assisted by operatives of District Attorney Orrin J. Lowell of Placer county. Officers stated the defendants attempted to pour out the evidence, but were not quick enough. They are charged with both possession and sale of liquor. It is stated they operated a club here, where a pass knock was necessary to gain admission, but operatives obtained the open sesame before making the raid, and used it to gain admission.

## WOODLAND FIRMS ARE CHECK VICTIMS

WOODLAND, Feb. 8.—Ed. W. Praet, Victor Groh and Clover Brothers, local storekeepers, and G. F. Woodfas of Capay, are the latest to acknowledge having been victimized by Nick Demopolous, the Washington convict, whose honeymoon trip was interrupted in San Francisco, and whose bride was deprived of her trousseau. Praet gave Demopolous \$70 worth of jewelry for a worthless check. Groh sold the Geek a \$6 pair of shoes and gave him \$34 in silver for a bogus \$40 check. Clover Brothers sold \$150 worth of merchandise for that amount of greenbacks and then gave Demopolous a \$48 overcoat for a worthless check to that amount, they allege. Woodfas says he loaned the Geek a \$50 watch and gave him \$30 to start his bridal tour.

## JAPANESE BARRED FROM SON'S ESTATE

MERCED, Feb. 8.—A petition has been filed here by G. W. Scholtz of Fresno for letters of administration on the estate of Yukiko Sakakura, a 3-year-old Japanese boy, who died last September. Shortly after his birth, his parents purchased property in Merced county valued at \$20,000 in his name, as permitted under the law at that time. The parents are the sole heirs, but are debarred from holding the land under the new alien land law, and it is a question as to where title will be conferred. The matter will come before the Superior Court next month.

Plenty of good, pure, fresh water from our own wells at South Park Homesites on South Main Street. Everybody welcome.

## STOPS ASTHMA

Choking and Wheezing  
Often In 24 Hours

Asthma, Hay Fever and Catarrh are responsible for much misery and falling health. If you are a sufferer from wheezing, sneezing, difficult breathing, hawking, raising phlegm, etc., to prove that you can stop these troubles quickly and easily with the pleasant, scientific Florentine Formula, I will send you a \$1 bottle postpaid and free of charge or obligation. If it satisfies, tell your friends and pay me only One Dollar, otherwise the loss is mine. Merely send your name today for this liberal free introductory offer—good only for 10 days. F. SHEARER, A1367 Coca Cola Bldg., Kansas City, Mo.—Adv.

## County Pioneer Called By Death

Funeral services for Malcolm McAuley, aged 76 years, who died at his home at Anaheim late yesterday, will be held tomorrow at 2 p. m. from the McAuley funeral chapel at Fullerton, according to word received here today.

Mr. McAuley had for the past 23 years been a prominent figure in Orange county.

He is survived by his wife and three children, Angus, residing at Fullerton, Mrs. Fred Earl Spencer, Anaheim, and Robert of Sacramento.

The Rev. C. B. Hatch, Presbyterian minister of Los Angeles, will officiate at the services, assisted by the Rev. Thomas Walker of Anaheim. The Presbyterian burial service will be read, and interment will be made at Anaheim.

## Aged Man's Body Found On Ranch

RED BLUFF, Feb. 8.—Mystery shrouds the identity and circumstances of death of an aged man whose body was found wrapped in a blanket on the First ranch south of Deer Creek bridge, about one mile east of Vina. One side of the skull was crushed, indicating he was probably murdered. L. Thompson, a rancher near Vina, saw a pair of shoes protruding from a pile of brush under which the body was covered. Another man whose name Coroner Charles E. Fish did not learn said he might be able to identify the body as that of a ranch hand. The murdered man evidently had been dead eight or ten months.

Radio Supplies at Hawley's.

## DRUGS SENT TO JAIL INMATES APPREHENDED

DETROIT, Feb. 8.—An attempt to smuggle drugs to a prisoner in the County jail was frustrated by Henry Wagner, turnkey, who discovered several packages of drugs hidden in a loaf of bread which had been sliced into several pieces to prevent close scrutiny by the deputies.

The drugs were being smuggled in for Albert Paul, of the Mack Hotel, who is being held on a charge of larceny from the person. Paul's wife visited him yesterday and left the bread. Mr. Wagner inspected the loaf of bread, found the drugs, and arrested Mr. Paul. He is being held charged with violation of the Harrison antinarcotic law. A small amount of drugs was found on Mrs. Paul, Wagner reported.

Two notes were found wrapped around the checks of drugs. One stated Mrs. Paul had bought the drugs with money which had been taken from Paul when he was admitted to the jail, and which she had later obtained from the deputies.

## Bear River Water Rights Protested

AUBURN, Feb. 8.—A protest against the granting of rights to the Nevada irrigation district, which, it is claimed, would interfere with the development of the full capacity of Bear river, has been filed with the division of wa-

ter rights of California by Dr. J. L. Rollins of Auburn, secretary of the Bear River Water and Power company. Rollins, who has been active in the organization of the Placer irrigation district, asserts that 700 persons, owning 45,000 acres of land, have petitioned the supervisors for permission to form the district.

## Groom Is Wanted On Check Charge

SACRAMENTO, Feb. 8.—Nick Demopolous, paroled prisoner from the Washington State Penitentiary, who was arrested in San Francisco while honeymooning with his bride of a week, is wanted in Sacramento on three charges of passing fictitious checks. While here recently Demopolous is alleged to have collected funds on bad checks after placing orders for furniture and a piano with local merchants.

## PROSTATE TROUBLE Obtain Quick Relief

If you suffer from painful urination, get up frequently during the night, have that awful dull ache and burning sensation, by all means try the Hexol home treatment. Hexol is an improved, scientific preparation which is giving prostate and bladder sufferers real comfort and relief—often in a single night—and you can test it without risk. Write us today to send you a \$2 package of Hexol tablets by return mail. Enclose \$2 or pay \$2 and postage on delivery, just as you please, with the distinct understanding that your money will be refunded at once if you are not pleased with the results of the Hexol treatment. Don't continue to suffer from these painful conditions. You risk no money. Write for Hexol now. MARVA PHARMACAL CO., Dept. A3621, Coca Cola Bldg., Kansas City, Mo.

## GOES TO PRISON FOR ROBBERY IN DENVER

DENVER, Feb. 8.—Joe Russo, alias "Blackie," was convicted by a jury in the West Side court yesterday of robbery in connection with the holdup of Marcus Joseph on December 8, last. He is liable to a sentence of from five to fourteen years in the penitentiary.

Joseph testified Russo, using a revolver, robbed him of \$63. Police officers, said Russo was unarmed when they arrested him and he insisted he had never owned a gun.

## Guard Unit Dance For Fund Benefit

Proceeds from a Lincoln's birthday dance to be held at the American Legion hall next Tuesday night will go toward the summer encampment fund of Company F, 160th infantry, California national guard, Captain Harry Prichard said today.

The national guard unit has arranged with Grigsby's orchestra for the music and tickets are being sold on the streets, he added.

## WAR VETERAN WILL SERVE JAIL TERM

NAPA, Feb. 8.—Within an hour of the time he had been arraigned in the justice court, Andrew Anderson, a member of the Veterans' Home, near Yountville, had been sentenced to serve eighteen months in the county jail. Anderson was charged with having contributed to the delinquency of a minor.

## COST OF VEHICULAR TUNNEL INCREASES

TRENTON, N. J., Feb. 8.—The cost of constructing the vehicular tunnel under the Hudson River will be \$14,000,000 more than the original estimate, thus making the cost approximately \$42,659,000. Figures accounting for this large increase appear in the annual report of the New Jersey commission which has been submitted to the legislature.

## 9 Escape Death On Floating Ice

QUEBEC, Que., Feb. 8.—Breaking of a natural ice bridge and the sweeping away down the raging St. Lawrence of nine persons proved upon investigation today to have resulted in no casualties. All those who were trapped when the ice gave way with a terrific roar, managed to scramble ashore later on the south side of the river, but did not report their safety.

## SECTION TWO

SANTA ANA, CALIF., FRIDAY, FEBRUARY 8, 1924

## SAYS SYMPHONY ORCHESTRA IS CIVIC SPIRIT UP-BUILDER

Most of 1500 Students of Music Here Would Drop Endeavors, Is Claim

### 18 REHEARSING HERE

Community Develops When Talent Becomes Known, Instructor States

There are today 1500 or more students of music in Santa Ana, according to Prof. D. C. Cianfoni, local musician, and of these he stated about 150 will continue their studies after finishing school. The rest undoubtedly will drop out entirely, unless there is an organization such as a symphony orchestra to foster their ambitions and promote their studies, he predicted.

"A symphony orchestra means much to a community," continued Professor Cianfoni. "It is a great aid in developing civic spirit, offers an outlet to the budding talents of the young musician and gives to the people of the community clean, wholesome and educational entertainment."

Professor Cianfoni has formed the nucleus of a symphony orchestra among the younger musicians of Santa Ana, he having eighteen engaged in rehearsals. A few of these are professional musicians who recognize the value of association with an organization of this kind, he said.

Some Are Criticized  
"A few musicians, I am sorry to say, lack civic spirit," added Professor Cianfoni. "They ask 'what do I get out of it?' A community is much like one's music. Unless one puts something into it, one gets nothing out of it. The old masters who put their souls into their masterly compositions did not ask what they would get out of it. It was their life work, and if the public failed to appreciate their efforts, the public was the loser."

(Continued on Page 10)

## Electrocution Is Held Accidental

The death of C. P. Guma, 38, was a closed incident, officially, today, a coroner's jury in the case of the electrocuted lineman having returned here a verdict of accidental death.

The verdict was reached at an inquest conducted by Coroner Charles D. Brown late yesterday, at Winbiger's Mission funeral home in this city.

Testimony at the inquest indicated that the accident, through which Guma came in contact with a high-voltage cable at the Katella substation of the Edison company, resulted when Guma became careless at his work.

## \$15,000 BUILDING ON S. MAIN, PLAN

N. Bordon, men's furnishing dealer at 313 East Fourth street, plans to erect a one-story brick business building on the northeast corner of Main and Camille streets, he announced today. The structure will cost approximately \$15,000.

Bordon said he expected to let the contract Monday, on which day he will begin the work of moving his residence on the site, 519 South Main street, to the rear of the lot and face it on Camille street.

The business building will have a frontage of 75 feet and depth of 65 feet. There will be three store rooms, one of which will be occupied by a market. He is expecting to develop a tenant for the corner room, which is to be arranged particularly for a drug store.

## Thugs Peril Head Of Student Body

LOS ANGELES, Feb. 8.—S. H. Dunlap, general manager of the student body of the University of California, Southern Branch, had a narrow escape from death last night when someone fired a bullet through a window in the home of James H. Wood, with whom he was visiting.

Dunlap attributed the act to criminals whom he blamed for a number of robberies committed at the university recently.

## CO-EDS PEEVED AT CAFETERIA 'BAWL OUT'

"Slick, Slippery People" Editorial Brings Mild Feminine Blushes

Fair co-eds at the high school here are blushing furiously and agitatedly biting their fingernails—figuratively speaking, at any rate.

An adroit "bawling out," in which specific names were not mentioned, however, has just been administered to them.

Hence the imaginary evidences of feminine vexation, not to say wrath.

Editor Joseph Lysle, of The Generator, high school weekly, together with his staff of writers and business executives are those responsible for the co-eds' peevishness.

Editors To Blame  
In this week's Generator, it became known today when copies of the publication were received, Editor Lysle, et al., caused to be published an editorial headed "Slick, Slippery People," which upon being examined proved to be a more or less restrained slap at some high school senior girls who "break into the line" in the school cafeteria at luncheon time.

The "bawl out" follows:  
"The chairs in the cafeteria are not slippery; at least the workers do not wax them. The tables are not slick particularly. Yet there exists in the cafeteria a slick, slippery atmosphere at lunch time."

"Every noon a long line of students present themselves in battle array. Every noon some senior 'damsels' come into the room when the line extends into the beyond. Some of these appear to be very mild. To all appearances they are very unprepossessing. They scan the line with a coolness acquired from long experience. Their glancing eyes alight upon friends."

Once one of them recognizes a friend just about to be served, our fair heroine ceases to be 'unprepossessing.' All prefixes to 'possessing' are dropped until lunch is over.

Friendships Told  
"To come to the point, our fair friend suddenly dashes for her acquaintance. It is not necessary for the acquaintance to be of long duration; that is incidental. A conversation ensues; this is a mere detail. The conversation lasts thirty seconds if our heroine has had six

## JAIL KANGAROO COURT HIGHLY RESPECTED

Reclamation of Character Influence Accredited By Authorities

By GEORGE HART.  
Orange county's "invisible government" is in jail.

But this particular invisible government is invisible merely because it is hidden behind jail walls. Inside of them it is at all times visible and moreover, highly respected.

It is the kangaroo court. Visitors at the county jail, who might hold the common belief that all kangaroo courts are merely vehicles of pranks, levity or burlesque, would encounter several surprises.

To begin, they would hear it spoken of with serious respect, even among the jailors. The guardians of the bastille view the kangaroo court as one of the best single influences for law and order and for the reclamation of character that could be injected into jail life. They treat it accordingly.

Habits Regulated.  
Next, the visitor would observe that the conduct and purposes of the kangaroo court are worthy of the respect it holds. They would no doubt agree with the jailors that the court, by functioning as the "self government" of the prisoners, not only imposes habits of cleanliness and good behavior, but also sets examples of unselfishness and generosity.

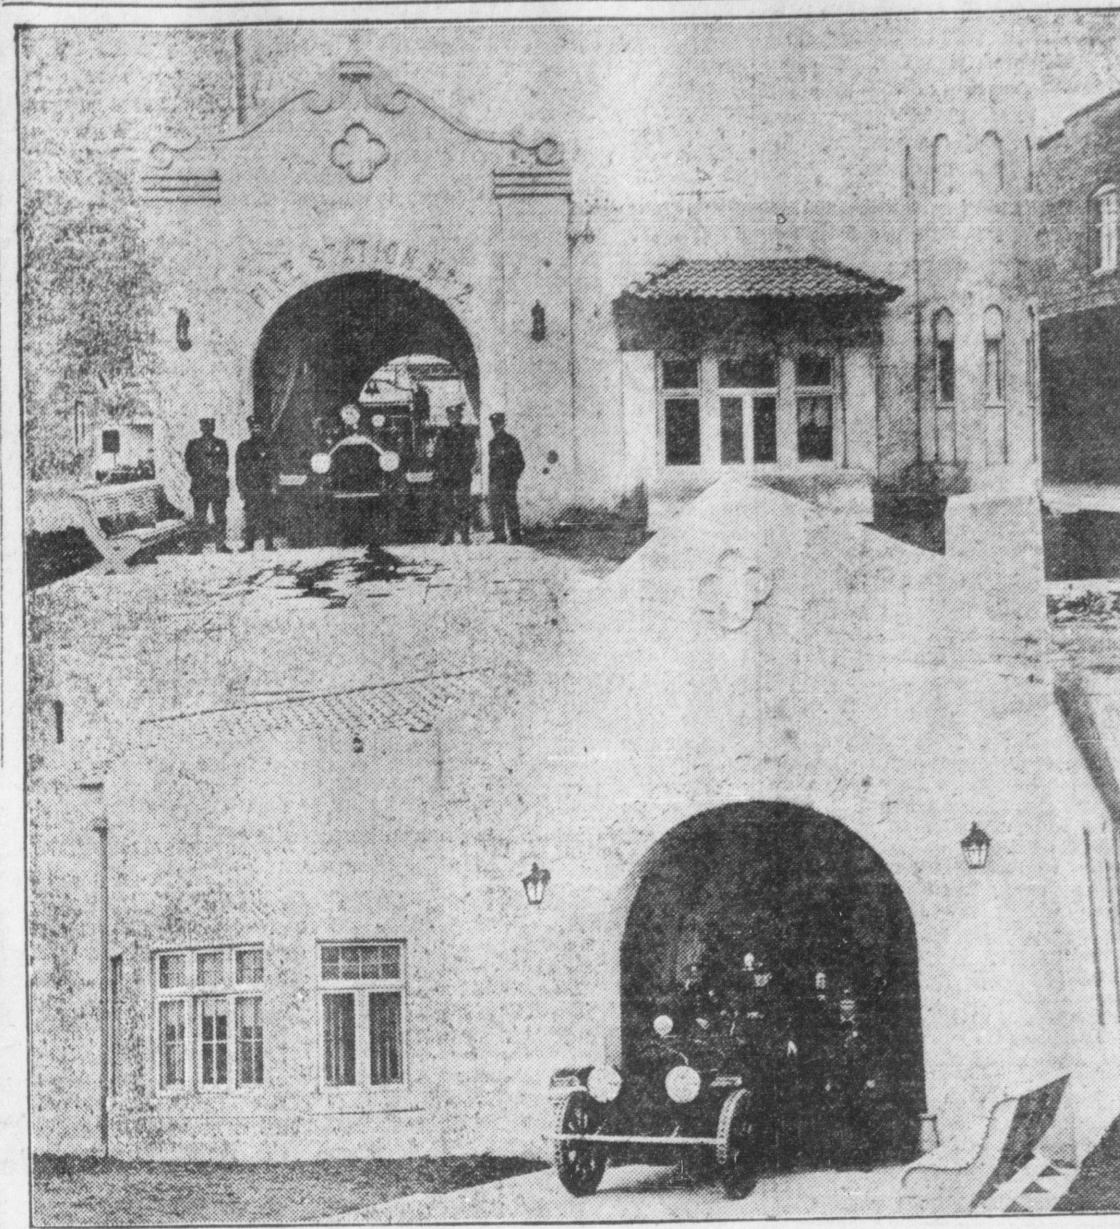

More than that, the court inspires a spirit of responsibility in each prisoner, which, the jailors believe, goes far to reclaim them as good citizens. This responsibility comes from the knowledge that the court, are masters to a great degree of their own affairs.

So long as the kangaroo court does not violate the regulations of the jail, its decisions and rulings are respected by jailors as well as prisoners. And since the jail regulations form the constitution, the foundation for all laws administered by the kangaroo court, there is rarely any conflict.

Luxuries Provided.  
Kangaroo court is patterned after the regular court of justice. Its organization consists of a judge, a prosecuting attorney, defense attorneys when required, and a sheriff. These positions are held by prisoners, selected for their abilities.

(Continued on Page 10)

## INSTALLATION OF EQUIPMENT AT TWO NEW BRANCH FIRE STATIONS IS NOW COMPLETED

The city's fire-fighting system was 100 per cent more efficient today with the opening of the two fire hall branches shown here. The men in the top picture (Station No. 2) are, from left to right, W. D. Wilson, John Smart, William Fox and Joe Johnson. Those in the lower view (Station No. 3) are Assistant Fire Chief Sid Kimball, standing; Ike Fields at the driver's wheel, and Lawrence Raymond.

## Mexican Governor Takes U. S. Bride

LOS ANGELES, Feb. 8.—Gov. Gen. A. L. Rodriguez of the Northern district of Lower California, and his bride, formerly Miss Alda Sullivan, of San Diego, left for Mexico early today, after a 24-hour honeymoon in this city. The couple married Wednesday, and came north to Los Angeles for a few hours.

## MOTOR LICENSE FEE DEDUCTED FROM TAX

Following hundreds of inquiries in regard to deductions allowed taxpayers in connection with the maintenance and operation of automobiles, Collector of Internal Revenue Goodell at Los Angeles today had formulated the following rules for the guidance of owners and prospective owners:

An automobile license fee is regarded as a tax and may be deducted whether the automobile is used for business or for pleasure. Gasoline, repairs, garage bills, etc., may be deducted as a business expense when an automobile is used wholly for business purposes, or in trade, profession or farming. When used partly for such purposes and partly for pleasure and convenience of the taxpayer and his family, the cost may be prorated, and that part attributable to business or the other pursuits mentioned deducted as a business expense.

Deductions for depreciation are governed by the same rules. If an automobile is used almost exclusively for pleasure, a deduction for depreciation is not allowed. The purchase price of an automobile, even when used wholly in business, cannot be deducted from gross income. It is a capital expenditure, deduction of which is expressly disallowed by the revenue act. The 5 per cent tax which attaches to the sale of an automobile cannot be deducted by the purchaser because it is a tax levied on the sale by the manufacturer and must be returned and paid by him. The manufacturer may reimburse himself in the amount of the tax by agreement with the purchaser, in the manner prescribed by treasury regulations. So far as the purchaser is concerned, the tax is a part of the cost to him of the automobile. The manufacturer may not deduct the tax in his return, unless the amount is included in his gross return.

In the event of a collision between a truck and an automobile used for pleasure, the owner of the truck may claim a deduction for damages, providing the truck was being used for business at the time of the collision. No deduction is allowed the owner of the automobile, because it was not being used for business purposes.

DELEGATES FOR COOLIDGE VOTE ARE NAMED

SAN FRANCISCO, Feb. 8.—Officials at headquarters in this city for the League of Coolidge Republican Clubs of California announced today that five congressional districts have to date reported their selections for candidates as delegates on the Coolidge ticket at the presidential primary, May 6. The candidates for delegate at large will be selected at a state-wide convention to be held in San Francisco Monday morning, February 25.

The delegates selected are as follows:

First district: Glenn Murdock, Santa Rosa, and State Senator Fred Handy, Ukiah, delegates; F. W. Georgeson, Eureka and F. Leon Spieler, Willows, alternates.

Third district: J. W. S. Butler, Sacramento, and W. M. Veale, Martinez, delegates; F. S. Israel, Stockton, and Bismarck Bruck, St. Helena, alternates.

Seventh district: W. W. Giddings, Modesto, and Harry B. McClure, Visalia, delegates; F. E. Osterhout, Madera, and A. J. Crites, Bakersfield, alternates.

Ninth district: A. L. Roland, Pasadena, and W. L. Evans, Glendale, delegates. Alternates not selected.

Eleventh district: John D. Spreckels, San Diego, and W. D. Clancy, Riverside, delegates. Alternates not selected.

The conference in the second congressional district to select the two May primary delegates and alternates will be held at Auburn, Monday, February 18, at 11 a. m. The date for the eighth congressional district conference has been tentatively fixed at February 16, while the fourth and fifth, San Francisco districts, and the sixth, the Alameda county district, will be held on or about February 15.

## ROAD PROJECTS LINKING ENTIRE COUNTY WITH HARBOR DUE FOR AIRING

Meeting Tomorrow Night At Costa Mesa Declared of Widespread Import

### PROPOSALS OUTLINED

Wide Highway Extending From Mountains to Sea Is Told

Important highway construction proposals which it carried out, it is declared, will bring huge benefits to the entire county, are scheduled to be brought to a definite head at a meeting to be held tomorrow at 7:30 p. m., at Costa Mesa, it was learned here today.

Among the road-building projects are several which are declared to be closely linked to the future of Orange county harbor.

Numerous business men of Costa Mesa and Newport Beach plan to attend. J. L. McBride, superintendent of county highways, and George Jeffrey, county supervisor, have signified their intention of being present, according to C. W. Te-Winkle, president of the newly-formed Costa Mesa Business Men's association.

Perhaps one of the most important of the proposed improvements is that calling for the linking of the harbor with a wide highway extending through the length of Orange county.

According to this plan, Fairview avenue to the intersection with Newport boulevard would be paved. When entirely completed, this highway would extend from Costa Mesa through the district west of Santa Ana; along Buaro Road east of Garden Grove and would pass through the outskirts of Anaheim; would join with Spadra road at Fullerton, and then connect with the Whittier boulevard and the Brea canyon roads.

This proposed road, it is declared, would make it possible for much cheaper transportation of garden products and all other products of Orange county to the harbor. The traffic over this road would miss the heavy traffic of the cities and would be much quicker and better for all concerned.

Another project calls for the paving of Santa Ana road from near Greenville to Newport boulevard, and still another for the paving of the portion of Newport boulevard from the foot of South Main street, on the north side of the Southern Pacific railroad west to Costa Mesa. These projects are declared to be vital to the needs of the greatly increasing traffic and to the future development of the Orange county harbor as well as to Costa Mesa.

## 40,000 YOUNG MEN IN TRAINING CAMPS

WASHINGTON, Feb. 8.—The war department plans for the 1924 summer military training camps will take care of 40,000 students, between the ages of 17 and 24. They will open in all army corps areas Aug. 1.

These camps are an extension of the Pittsburg idea of 1915, favorite Americanization plan of Theodore Roosevelt. They offer a 30-day course in outdoor training to volunteer candidates who take measures up to the standards set by the war department. All expense is borne by the government.

Instruction is divided into four groups, designated as the basic, red, white and blue courses. In the basic course only the elementary drills are to be taught, athletics and citizenship studies receiving the principal attention. But students in the advanced classes may specialize in infantry, cavalry, engineers or other branches of the service.

FEARS WHITE SLAVERS.  
LOS ANGELES, Feb. 8.—Mrs. J. C. Smith of San Fernando, has solicited aid here in a search for her daughter, Mrs. Lora Dennis, unheard from since October, 1923. She fears Mrs. Dennis has become a victim of white slavers.

It Is Estimated That  
**95 Per cent of CHARGE CUSTOMERS are HONEST. The Rest Are NOT**

**MR. MERCHANT:**—If you KNEW that ONE EGG in the supply you bought was liable to be "ROTTEN," what would you want your wife to do BEFORE making you an omelet? Why, EXAMINE EACH ONE, of course!

**NOW THEN---** What do YOU do when you KNOW that the CREDIT of a certain percent of the customers who ask you for CHARGE ACCOUNTS is "ROTTEN"? Why TAKE A CHANCE? Let us EXAMINE them ALL.

## READ THIS LITTLE TALE:—

(Sounds "Fishy" but it's True)

A business-like young man brought his wife into the store of one of our members, and applied for a \$65.00 account. He wanted immediate credit. He looked prosperous, but he was a bit hazy on references, so our member stalled him off, and referred the matter to us, the Orange County Credit Association.

Now it just happened that the Credit Association of the town from which he had just come knew of his destination, and his record there had been sent to our office, and was already on file. It showed several uncollectable accounts; in fact, the young man was rated as "judgment proof".

This information was passed on to our member. Needless to say the prosperous looking young man was wroth, very wroth, when his application for the account was turned down. But our member is jingling sixty-five silver dollars in his pocket and says that "it's just as good as finding them".

We are wondering if this young man succeeded in "sticking" some non-member merchant of Santa Ana? If he did, the \$65.00 lost would pay the dues of that merchant for an entire year in our Credit Association.

## JAIL KANGAROO COURT HIGHLY RESPECTED

(Continued from Page 9)

ties and elected by the other prisoners.

"Court costs" are supplied by membership fees collected from each incoming prisoner. A small initiation fee is followed by small monthly dues, payable for three months, after which financial obligations to the court cease.

Personal obligations, however, continue so long as the prisoner is under the court's jurisdiction, which means inside of the jail. These dues suffice to cover the needs of the court, one object of which is to supply to the jail inmates numerous modest table luxuries and other conveniences that would be denied them otherwise.

Thus, membership in the court entitles the prisoner to a daily newspaper, stamps and stationery for his correspondence, tobacco, money for telephone or telegraphic messages, toilet articles and other comforts. The court fund supplies sugar and several other table delicacies that are not included in regular prison fare. A jail photograph, bought by the kangaroo court, is kept supplied with new records for entertainment of the prisoners.

**Charity Not Overlooked.**  
The court frequently devotes its funds to charity. More than one out-going prisoner, either in bad health, crippled, or just "down on his luck," had been supplied with funds to carry him to some distant destination.

This control of funds and comforts no doubt has its hold on the prisoners and aids the previously mentioned spirit of responsibility in maintaining order and getting the things done that the court wants done. But the court has other ways of attaining its objects. Violations of its rules bring formal trial and punishment, if guilt is found, hence the regular court machinery. Penalties are provided, including extra duties, such as would have been termed "K. P." in

the army, or the offender is denied luxuries.

One of the most potent holds maintained over the prisoners is the "black-list." Any prisoner whose name is placed on the black list is held to be ineligible for appointment as "trustee." Inasmuch as the trustees have much freedom about the jail, no prisoner cares to jeopardize his chance for appointment.

**'Judge' Disciplinary.**

When a charge is made against any prisoner, it must be filed formally with the court. The prosecuting attorney then causes the sheriff to hale the offending prisoner before the court, where the charge is read to him.

If the prisoner pleaded guilty the case is ended there. If the charge is denied, then the prisoner selects an "attorney" to defend him and the trial is on. There are no juries, however. The judge decides all cases.

"Mike" Collins is at present judge of the kangaroo court, and by virtue of his office, dictator of the "tanks" in a small way. A strict disciplinarian, "Mike" has the reputation of giving his judicial rulings with utter impersonality and justice. He holds the respect of his fellow inmates.

"The kangaroo court is a fine institution, not only for the prisoners themselves, but also for the jailors," is the conclusion of County Jailor Moncrief. "It certainly is a great help to us in keeping order. It does much of our work for us. Long may it prosper."

### SET HEARING DATE

The hearing of parole application made by M. R. Warren and M. V. Warren on a check kitting charge was today continued by Superior Judge R. Y. Williams to next Friday at 9:30 a. m. The case is scheduled to come before Judge F. C. Drumm at that time.

Radio Supplies at Hawley's.

## SAYS SYMPHONY ORCHESTRA IS UP BUILDER

(Continued from Page 9)

of being a community of educated and intelligent, musically inclined persons.

"I know these persons are that, for I have played for them. I have found them receptive to the best there is in music; the works of the masters have met a ready response. The children of such persons need an organization such as a symphony orchestra in which they may find themselves and develop their technique. How else can the young musician learn how a master composition should be interpreted?"

**Pian Concert in April**  
Plans of the local symphony orchestra call for a concert during the first week in April. Professor Clafonfi expressed the hope that this concert would demonstrate to the local public that the organization could fill a real community need, and that civic groups will get behind the movement to promote a bigger orchestra for the next winter season.

There are perhaps fifteen or twenty additional musicians in the city, according to Professor Clafonfi, whose co-operation is desired, and who undoubtedly will align themselves with the organization. All musicians of the city are invited to attend the next rehearsal of the orchestra, February 20, at Chandler's Music store, he stated. Professor Clafonfi has been ac-

tive in local musical circles since last October, and since that time in addition to the symphony orchestra, has formed a brass band, which is rehearsing weekly. This band may yet be the nucleus of a municipal band, according to the professor.

Born in Ardena, Italy, Professor Clafonfi has directed symphony orchestras in his own country and in Erie, Penn., and he led a theater concert orchestra in Philadelphia, Pa.

## SOURCE OF LIQUOR PROBE CONTINUED

Interrupted at the morning session of court, when Superior Judge Z. B. West was called away, the hearing on an application for probation, made by Steve Cardena on a charge of driving an automobile while under the influence of intoxicating liquor, was scheduled to be resumed at 2 p. m. today.

The hearing, begun last week, was continued to today in order to secure the presence of Joe Contreras, who was said by Cardena to have purchased the liquor which caused Cardena's arrest. The court wanted to know if Contreras could tell where the liquor had been purchased, Cardena having denied knowledge.

Contreras today testified that Cardena had pointed out the place at Anaheim where the liquor was purchased. The two youths stood face to face and exchanged denials, until finally the burden of having pointed out the source of the liquor was shifted to the shoulders of Benny Contreras, who was not in court.

An effort would be made to have Benny Contreras in court this afternoon when the hearing was resumed, it was stated.

## CO-EDS PEEVED AT CAFETERIA 'BAWL OUT'

(Continued from Page 9)

months' experience; if she has had one year's experience, it lasts five seconds.

"Then with expert slipperiness, she slides in front of her friend in the line. The slick one (the 'fair' dame) gets to eat a few minutes earlier.

"Far be it to elucidate at the expense of our senior friend alone! According to the psychological experts, the younger we are the quicker we learn. The modern translation is: The younger, the more they know. Our junior friends are getting extraordinarily expert at this dramatic art. And the old sophomores—all they lack is experience. And the brand new sophomores coming in—are they some 'slick slippers,' too?"

"Some members of this student body show themselves when it comes to be served; whether they are terribly hungry or not, we would not venture to guess."

Members of the editorial staff, beside Editor Lyle, are, assistant editor, Theodore Jessee; literary editor, Nina May Middleton; sport editor, Ivan Swanger; exchanges, Della Hampton; faculty advisor, May E. Murphy.

## CHAIN LETTERS BRING POSTAL MEN GRIEF

It will take the postal department ninety days to deliver the 4,104,545,401 letters resulting from the first little innocent appearing chain letter, provided each person receiving a letter follows instructions and mails nine copies to nine others. That, at least, is the opinion of a local statistician.

Have you received a chain letter?

Nearly everyone else has! It is, apparently, a neat little game of horseplay resulting in little discernible good and in much annoyance to an already overworked group—the postal folk.

Letters were recently received by a number of persons in this vicinity, including City Attorney L. W. Blodgett and Leonard Obarr of Huntington Beach.

Here is how the affair works:

Each letter carries a request that nine duplicates be sent to nine other persons within nine days. Thus the first step increases the misadventures to eighty-one. Within another nine days the total has reached seven hundred twenty-nine and the third step of the Robins nets 59,049 letters, and so on until the tenth reaction from the plea, covering approximately ninety days, would bring the total up to 4,104,545,401.

"If people receiving these chain letters," stated Postmaster T. E. Stephenson of Santa Ana today, "would disregard them, much congestion in the postal department would be alleviated."

## KLAN ORGANIZER SUES FOR THREATS

JEFFERSON CITY, Feb. 8.—A. L. McKinney, reputed organizer for the Ku Klux Klan, has filed in the United States district court in Jefferson City, suit for damages against seven prominent citizens of Fayette, county seat of Howard.

McKinney's petition was filed through the mails from Kansas City. He asks \$25,000 actual and \$25,000 punitive damages.

McKinney says that on the night of October 23, 1923, he was invited to attend a meeting at the office of the Bank of Fayette and that these citizens at that meeting were extremely "hostile and threatening" in their attitude towards him, and told him he must leave Fayette. This, he says, he refused to do and left the meeting.

Later that night, he charges, they broke open the door of his room and told him that if he didn't leave a mob would hang him. He declares that he at once left town in his motor car.

He charges that the men named in his suit followed him several miles and fired shots, some of which struck his car.

He avers in the petition that he was attending to his own business, which was strictly "of a lawful character."

No mention is made whatever of the Klan in the petition.

McKinney's lawyer did not accompany his petition with sufficient money to guarantee the expense of the deputy marshal serving the notices of the suit, consequently the petition has not been filed.

## BOY SCOUT WEEK WILL BE OBSERVED

Plans today were completed for the local observance of Boy Scout week, marking the fourteenth anniversary of the Boy Scout movement in the United States, according to Roland E. Dye, Scout executive for Orange county. The anniversary will be observed throughout the nation beginning today and continuing until next Friday.

Each of the twelve Santa Ana Boy Scout troops will observe the anniversary in its own way during the week, there being no concerted celebration contemplated, according to Mr. Dye. It is planned that each troop will meet in its own quarters, where exercises typical of the Boy Scout work will be given. Parents and the public in general will be invited to the programs, he said.

Another feature of the observance contemplated by the local Scouts is a hike to give the boys an opportunity to utilize their training in Scout craft by camping in the open.

During the latter part of next week the Santa Ana troops will go to Anaheim where, together with the five troops of that city, a financial campaign will be carried on.

## GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion". Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any drugstore a few ounces of Eucated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloating right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Eucated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Adv.

## Clew to Identity Of Body Is Found

RED BLUFF, Feb. 8.—The body of the aged man found on Deer creek, near Vina, Friday afternoon, may prove to be that of Jack Lewis an old-timer of Los Molinos colony, Coroner Charles E. Fish learned today. Lewis formerly was employed on the Cone & Ward sheep ranch. He left there October 19 and has not been seen in the colony since.

Undersheriff J. N. Froome of this city, who knew Lewis well, said he always had money with him, sometimes in fairly large amounts. An inquest will be held Sunday afternoon.

## YOUNG ACTRESS STARS IN POLY 'SEVENTEEN'

The best amateur high school actress has ever directed.

This today was Ernest Crozier Phillips's expressed opinion of Miss Italia Perrine, "leading lady" of the high school senior play, "Seventeen," which will be given in the high school auditorium Friday, February 15, at 8 p. m.

Miss Perrine takes the part of little sister, Jane Baxter, and is daily thrilling other members of the cast with her clever portrayal of the part.

An addition to the cast is Miss Jane Griffith, who will take the part of Mrs. Baxter, the mother of Willie Baxter, who is the immortal "Seventeen," as Booth Tarkington has pictured him.

With just one week in which to take a part which was originally set apart for another, Miss Griffith is making rapid progress to fill one of the most important parts in the cast with credit.

Gail Jordan, acknowledged to be the dramatic light and the best boy debater in the high school, is taking the lead admirably. Phillips stated. His audience probably will be amused to the last degree, he added, though he explained the part, at the same time, called for sympathetic understanding of the trials connected with being "Seventeen."

Other members of the cast are James Greeler, Harold Smith, Ivan Swanger, Milton Davis, Wallace McClure, Lloyd Morris, Charles Webber, Miss Mable Pruitt, Miss Ethel Smallwood, Miss Gwendolyn Tubbs and Miss Nina May Chapman.

## VEIL OLYMPIC RACE COURSE IN SECRECY

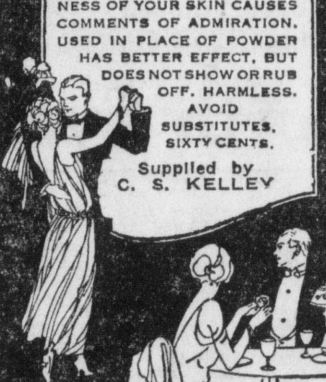

NEW YORK, Feb. 8.—The cross-country course over which the Olympic cross-country championship will be decided next July will be kept a secret until the day of the race. This information came to the American Olympic committee from the French Olympic committee and was in response to a request made by Secretary Frederick W. Rubien for information as to the nature of the Olympic cross-country course. It is assured, however, that the course will not be very hilly, with practically no road running and that very short spikes may be used to advantage. The American cross-country runners will be selected after the final tryout, which is scheduled for Van Cortlandt Park probably early in June. It is quite probable that the course over which last year's intercollegiate championship was held will be selected.

HOSPITAL PROPOSED  
WASHINGTON, Feb. 8.—Construction of a veterans' hospital at Portland, Ore., at a cost of \$500,000, would be authorized under a bill introduced today by Senator McNary, Republican, Oregon.

## Two Lives Saved By Fast Thinking

SACRAMENTO, Feb. 8.—Charles

F. Bussom had to think fast the other day. His life and the life of a companion were in peril. He was driving his truck on the Twelfth street trestle at 5 a. m. A Sacramento Northern train was

sweeping down upon him. It was either be struck by the train or drive his truck over the side of the trestle with the prospect of plunging some feet to the ground.

Bussom chose the latter course. He swerved his truck. It plunged through the guard rail. But a miracle happened. The truck did not plunge over the side of the bridge. The rear

wheels caught on the guard rail, and the heavy truck, loaded with household goods, hung suspended in the air.

Notice to property owners on Linwood and Eastside avenue. Pay your assessments for paving at 216 Bush street now.

B. R. FORD.

Best tennis rackets—Hawley's

# FEIN'S STYLE SHOP

## Formally Opened Tomorrow at 420 West Fourth Street

(—Nine A. M.)

## Inspect Our New Shop Saturday

We welcome you to this new shop and its fresh new displays of Spring Millinery. The latter has been chosen with a care and foresight backed by fifteen years of millinery experience.

Nationally known houses like Gage, Fisk, Keith and others were called upon to supply this shop, to make ours a better millinery service to the ladies of this vicinity.

If any one feature will impress you, upon your initial visit here, it will be our attractive prices. Clever styles and new fabrics will be united with modest pricings to give you every feature to be desired in a hat—value!

A specialized service will also be conducted by Mme. Fein, French designer, in the designing and making of pattern and costume hats to your individual order.

## MUSIC

Grigsby's Club Orchestra will furnish a concert Saturday from two to four in the afternoon and again at seven in the evening

In Celebration of Our Opening Tomorrow We Will Sell Newest Spring

Many of You Ladies Can Easily

## Make Your Own Hat—Save!

We will supply you with regular \$1.95 newest Buckram shapes for only 85c. Also braids, flowers, feathers, straw goods, etc., at special reductions.

## These Special Prices Will Be In Effect All Next Week

## FALL OF MARK REAL TRAGEDY TO STUDENTS

PHILADELPHIA, Feb. 8.—Auntie, although still hungry, is starting public kitchens and other relief work for the starving millions in Germany, because they know their suffering is as nothing compared with that of the German people.

This information has just been received at the American Friends Service committee headquarters here, from Quaker relief workers in Germany.

"What these last three months have meant in tragedy piled on tragedy cannot even be imagined outside of Germany; no one person, even in Germany, can imagine it all," the Quaker relief workers report.

The fall in value of the mark means that the funds on hand, and in sight, for student feeding, will care for only 600 students instead of 1000 as last year. The dreadful alternative—give up your education or starve—remains for all but a lucky few of the students of Germany.

The young men and women students worked hard all summer to earn something for their maintenance this year; they pitted their courage and their determination against the steadily falling mark, which every day wiped out something of what they had accumulated in the previous days. In the very week of their return to the studies, the mark fell from a hundred million to the dollar to six hundred million—their summer's work gone like chaff before the wind."

### Southern California

PASADENA—Eighteen drastic changes in Pasadena's present zoning ordinance have been recommended by the city planning commission. The proposals of the commission will be considered and acted upon tomorrow by the city directors. From nearly every section of the city petitions have been received by the commission from property owners appealing for a change in the law to permit or prevent construction of certain buildings.

WESTMORELAND—Continued trouble with the moving sand dune on the paved highway about three miles north of Kane Springs has brought forth many suggestions to the State Highway Commission as to how the trouble can be stopped. Harry Staub formerly of Brawley, believes that two car loads of crude oil sprayed over the sand dune would stop the moving sands and make the maintenance of the equipment there unnecessary. Heretofore the sand has gradually encroached upon the paved highway and must be scraped away every few days in order to permit passing vehicles to get by.

EL CENTRO—A telegram has been received at irrigation district offices to the effect that the various committees in Washington deny any knowledge and participation in any compromise agreement whereby the private power companies are to be given practically half the power rights, the city of Los Angeles the other half and that no All-American Canal is to be included in the Swing-Johnson bill. The telegram states that all the committees including those from Los Angeles, Coachella Valley, Yuma and Imperial Valley are for the project in its entirety.

BRAWLEY—The Federation of Imperial Valley Women's clubs has elected the following officers: Mrs. Ed Rawls of Calipatria, president; Mrs. I. W. Bransby of Imperial, vice president; Mrs. Kate Beale of Holtville, vice president; Mrs. John Curtis of Brawley, recording secretary; Mrs. E. O. Hasty of Calipatria, corresponding secretary; Mrs. George Knight of Calexico, treasurer; Mrs. A. W. Hale of El Centro, auditor; Mrs. A. P. Shibley of El Centro, parliamentarian.

GLENDALE—A fourteen-story, 1,500,000 "own-your-own" apartment building is assured for the southwest corner of North Brand boulevard and West Lexington drive, on which construction will start May 1. It is expected to be completed by the end of the year. The apartments, to be known as Endicott Arms, and to be erected by the Endicott Arms Apartment company, Inc., will contain 180 apartments, according to an announcement by Wallace C. Plumb, treasurer of the company.

## Arrest Woman On Narcotic Charge

SAN FRANCISCO, Feb. 8.—Dorothy Harris, whose husband, Jack Bardin, is serving a seven years' sentence in McNeill prison for dealing in illicit narcotics, was arrested at Ninth and Market streets, by Federal narcotics agents yesterday, on charges of violating the Harrison act. The arrest marked the third time the woman had been in difficulties on similar offenses with the Federal authorities. During Bardin's trial, the woman averred that narcotics found in his possession belonged to her. When arrested yesterday the Harris woman was dealing in narcotics from an automobile driven by Edward Buttner, who also was arrested, asserted the officers. A search of the Harris woman's residence at 1763 Geary street, revealed a large quantity of narcotics. Before Federal Commissioner Hayden the Harris woman and Buttner were held in bonds of \$5000 each for the Federal grand jury.

SUSPECTED FORGER CAUGHT  
SAN FRANCISCO, Feb. 8.—Caught by Burns detectives after an auto chase through the downtown streets yesterday, William Graham, alias William Krupp Rice, was lodged in the city jail, waiting the arrival of police from Los Angeles, where he is wanted for issuing bad checks.

## Sale of Outfit Fails to Pay Rent

FREDERICK, Md., Feb. 8.—Failing to receive rent from a woodshed she rented to George C. and Roger Grove, Mrs. Anna Crum levied on their outfit, consisting of a horse and wagon. Constable Smith took possession of the horse and fed it for a week, thinking the owners would pay the rent—\$3.75—and the cost of serving the warrant and keep of the animal. Because of the age and condition of the horse and the fact that the wagon had broken shafts and was otherwise in need of repairs, the constable put up the outfit at public sale.

The horse brought 25 cents; the wagon, \$2.25; harness, 29 cents; collar, 10 cents, and a halter, 10 cents. The proceeds were not enough to pay the cost of the levy and feed for the animal.

## OFFICERS AID ADDICT WAGE GRIM FIGHT

DES MOINES, Feb. 8.—Frank La Boie, 54 years of age, St. Louis, Mo., is winning his fight against the drug habit.

La Boie asked Capt. Bill Bronson and Sgt. De Vries to aid him when he was lodged in the city jail late last week.

He declared he was a drug addict and wished to be kept behind the cell bars till he could fight off the craving.

La Boie has already spent four days on a milk diet in the city jail. The first effect of his imprisonment told heavily on the aged addict. He became ill and required close attention from his jailers during the first two days of his confinement.

The craving is beginning to leave him, La Boie told police officials. He hopes soon to be able to leave the city jail without fear of falling into the hands of drug peddlers. During his stay in the jail officers interested in his case have bought for him the scanty provisions which he required in order that the expense of furnishing him food would not fall on the city.

## ILLINOISANS PLAN LINCOLN DAY FETE

The annual reunion picnic of the Illinois State association of Southern California will be held at Long Beach, Tuesday, February 12, at Bixby park, overlooking the ocean, or in the municipal auditorium, in case of rain, it was announced here today.

A splendid program has been arranged for the day. The Rev. George P. Taubman, Long Beach pastor, will deliver an address, as will Arthur Reynolds, Chicago banker, and J. Hamilton Lewis, former United States senator from Illinois.

Mayor C. A. Buftum of Long Beach will be official "welcomer." The "Daughters of Knox glee club," a women's quartette from Knox county, will render popular songs and lead the crowd in community singing. Readings will be given by Miss Burnside.

County, college and lodge registers will be maintained. Basket dinners will be served at noon, with coffee served free by the society.

## NAME EACH OTHER IN STRANGE WILLS

ST. LOUIS, Feb. 8.—The wills of Alice Belle and Sarah Jane Tindall, sisters, who died within a few hours of each other at the Deaconess hospital, were filed in the Probate court. Their deaths were due to the natural infirmities of age, after an uninterrupted companionship of seventy years.

Alice B., the elder of the two sisters, after a few minor bequests to a niece, a nephew and a friend, leaves the rest of her estate to her sisters, Sarah Jane and Maria L. Tindall, equally.

## Girl Leads Raid On Chinese Tong

SAN JOSE, Feb. 8.—Miss Donaldina M. Cameron, superintendent of the Presbyterian Chinese mission of San Francisco, led a squad of county officers in a raid on the Hip Sing tong headquarters here while a banquet was in progress and arrested one of the three Chinese girls found there.

The raid was made on information Miss Cameron said she has in her possession that leads her to believe that Chinese slave girls are being smuggled into San Jose from Canada and that four of them are now in this vicinity. The girl arrested, who is only 15 years old, is not one of the four girls sought. Paul Arnerich, assistant probation officer, has begun an investigation. The other two girls at the banquet said they were more than 18 years old.

## VIENNA LOOSENS SHACKLES OF MARRIAGE

BERLIN, Feb. 8.—A new marriage reform which is supposed to preserve the good of the old form but avoid its evils, uniting only couples suited to each other, is rapidly gaining favor in Vienna, according to reports from that city.

It is known as the "free marriage system of Haft," after its inventor, Dr. Haft, a former professor of mathematics. Already 43 couples have entered wedlock under the new system and 62 other couples are engaged the same way.

More and more marriage advertisements appear in the Vienna papers through which lonely swains seeking life partners declare that the new plan is preferable.

**Club Formed.**

Some Viennese couples who have tried the system and found it satisfactory, are now discussing the founding of a "verein" or club, the purpose of which would be to spread the glad tidings of the happiness which the new system holds.

1. The marriage is a partnership in which each partner retains complete liberty, including relations with other members of the opposite sex, but under which each is responsible for any damage caused the other.

2. The suitability of the man and the maid for each other is determined by an analysis of their handwriting, and only those whose handwriting shows that their characters are similar, may marry.

The handwriting analysis is made by Dr. Haft himself. In addition the applicant must fill out a four-

## Pulling Power of Register Revealed

The pulling power of Register advertising was demonstrated yesterday when it was found necessary to keep the doors of the Army & Navy Department Store on West 4th Street, locked and admit shoppers in relays all throughout the day. Representatives of the Arizona Sales Company, who have the sale in charge, gave The Register credit for the splendid results obtained through the double-page announcement which appeared in Wednesday's paper.

**SUSPECT ARRAIGNED.**

Francisco Valencia, charged with burglary, was today arraigned and pleaded not guilty in Superior Judge R. Y. Williams' court, where his trial was set for March 20 at 10 a. m.

page questionnaire, telling everything about himself, including the size of his shoes, his favorite dish and his favorite color.

**Sign Contract.**

If the partners agree, they marry by simply signing a contract in Dr. Haft's office. The main provisions of the contract are that the couple shall never call in a third person as judge in their quarrels and to never let the sun go down over a hostile word or deed.

Both declare themselves to be healthy, but if this be untrue the guilty party agrees to pay the other so many millions of kronas as damages. Neither party is bound to marital faithfulness.

At divorce through his fault he pays her so much a month until she remarries. At divorce through her fault she pays nothing. In case of divorce the children belong to her.

Suitors odorless dry cleaning, first class service. 309 No. Sycamore. Phone 279.

## Billy Evans Says

Dick Nallin and Clarence Rowland are now both American League umpires. Nallin broke into the American League as an umpire at the same time Rowland made his debut as manager of the Chicago White Sox. Thereby hangs an interesting story.

Rowland came direct from a bush-league club to the American League. It was a rather unusual jump for a manager to make. In the vernacular of the ball field, Rowland was known as the "bush-er." When he pulled something that failed to meet with the approval of the umpires, it was merely regarded in the light of a bush-league trick.

The very first game in which Nallin officiated against the White Sox he chased Rowland to the showers. It seems that Rowland didn't like the motion the opposing pitcher was using to first base, and believing it a balk, he rushed out to the home plate to let Nallin in on the secret.

"What are you doing up here?" said Nallin.

"I came up here to tell you that pitcher makes a balk every time he throws to first base," answered Rowland.

"Well, that is all you're going to tell me today; you're through!" was Nallin's comeback.

"Well, I am disappointed," said Rowland. "While I expected to get chased from the game, still I felt sure it would be any umpire but you," replied Rowland.

"How did you figure that out?" asked Nallin.

## ANIMAL HUNTING FILM IS SHOWN TO STUDENTS

At the invitation of Principal J. W. Means of the Tustin union high school the county farm bureau film "Hunting Wild Animals in Africa" was shown at the Tustin school this afternoon. It was announced by A. M. Stanley, secretary-manager of the farm bureau, under whose supervision the pictures are being shown at the respective farm centers over the county.

This evening at the club house in Garden Grove the pictures will be run off again.

The Santa Ana high school students will view the film Monday. Everywhere the film has been received with acclaim, according to Stanley. It is the same film which was greatly exploited when it was shown at the West End theater in Santa Ana some months ago, he said.

asked Nallin.

"I knew the regular impulses would chase me, but I figured we bush leaguers would stick together."

Nallin admits that he felt like declaring Rowland back in the game after he pulled that one. It was sure the retort courteous and

## OLDER BOYS' MEET OF Y IS PLANNED

George Chessum, general secretary of the Y. M. C. A. in Orange county, today announced plans for the holding of an Older Boys' conference February 16. According to Chessum, the decision to hold an Older Boys' conference in Santa Ana is the outcome of the recent Hi Y conference. This conference was so successful that it was decided to extend the benefits to the older boys of all the churches in Orange county.

The conference will be held in the First Baptist church and will have its formal opening with a luncheon at which J. A. Cranston, city superintendent of schools, will be toastmaster. The luncheon will be served in the church dining room.

After lunch an hour will be devoted to group discussions of topics vital to the work among the older boys of the county. These discussions will be led by the secretaries of the various county Y organizations. The hours from 4 o'clock until 6 o'clock will be devoted to an inspection of the new Y. M. C. A. building by the boys.

At 5 o'clock there will be a special conference for teachers and leaders and the annual meeting of the County Y. The closing session of congress will start with a banquet at 6:30 o'clock.

## Delay Check Case Arraignment Here

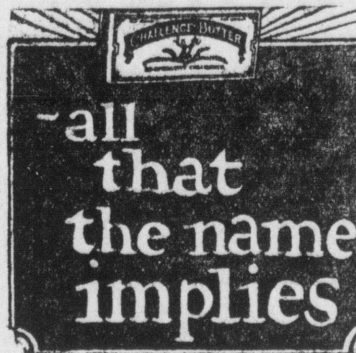

Arraignment of Reginald Arbisio on a charge of check kiting was scheduled to be held at 2 p. m. today, proceedings in his case having been postponed at the morning session of superior court, when Judge Z. B. West was called away to conduct other proceedings.

## NAB TACOMA COUPLE ON KIDNAP CHARGE

LOS ANGELES, Feb. 8.—Charged with kidnaping, Earl Stanton and Frances Stanton, his wife, were held here today, awaiting arrival of Tacoma officers to take them into custody.

The two are accused of kidnaping Frances Hill, 7, and James Hill, 12, children of L. P. Hill, Tacoma lumberman.

Mrs. Stanton is Hill's former wife, and under a court order was given permission to take the children certain times each year. The order for the arrests allege that the Stantons took the boy and girl out of the state of Washington, in violation of the court order.

## LIONS OBSERVE SECOND NATAL DAY OF CLUB

With tomorrow marking the second anniversary of the official organization of the Santa Ana Lions club, the club yesterday featured the event by having as its guest E. R. Yundt of Pomona, governor of the fourth district of Lions clubs.

Stating that he had particular interest in the Santa Ana club because it was at the convention in this city last year that he was chosen head of the district, Yundt took up a discussion of the principles of Lionism. Their value to members and their influence in effecting closer social relations between business men identified with the club was cited.

Yundt urged members of the local club to take an interest in elections and in the casting of ballots on all matters coming up for settlement in this way. Referring to the cause of the Revolutionary war, he said that conditions today were more or less identical, due to the antipathy of the American people in the matter of interest in public affairs and in exercise of their voting franchise.

Quoting a declaration made by the late Theodore Roosevelt, that "members of the national congress should be above suspicion," the district governor declared that Lions and other similar clubs should wield a tremendous influence in determining that men of this type shall be placed not only in the national congress, but also in all of the governmental positions of city and state.

Dr. Elliott H. Rowland, past president of the local club, was chairman.

Duet numbers by A. B. Garrison and A. J. Garroway of Orange, accompanied by Mrs. Garrison, were greatly appreciated by the Lions present.

Plenty of good, pure, fresh water from our own wells at South Park Homesites on South Main Street. Everybody welcome.

## Girl Released in Hotel Case Turns On Oil Promoter

Found guilty of violating the Los Angeles rooming house ordinance, Miss Leonora Wing, 22, former companion of R. H. L. Moaks, accused oil promoter, was today at liberty under a suspended fine of \$250 or jail sentence of thirty days, pronounced by Police Judge Pope in Los Angeles.

Miss Wing, who gave damaging testimony against Moaks at his hearing on an embezzlement charge in connection with the "oil pool" near Santa Ana, told the court that her former love for Moaks was dead and that she would not only keep away from him but would remain at hand to testify further against him, if needed. Miss Wing had been found guilty of registering at a hotel with Moaks, the complaint against her being filed by Moaks' wife.

At Moaks' hearing on the embezzlement charge, Miss Wing testified that he spent upon her, funds that he had received from various women for investment in an oil promotion scheme. The money, it was said, was supposed to have been devoted to development of oil on the J. J. Mueller ranch near this city. Mrs. Hilla Vacha, Hindu woman, who claimed that she "divined" oil beneath the Muller ranch, said Moaks took her money on the promise to form a company.

## S. F. Stage Guild Sued By Actress

SAN FRANCISCO, Feb. 8.—Jessica Colbert, manager of the San Francisco Stage Guild, yesterday filed an answer in the Superior

## Negro Held For Woman's Death

MERCED, Feb. 8.—Will Davis, colored, of Stockton has been arrested on a charge of manslaughter, following an auto accident near Merced Falls on January 16, when Mrs. Elmira Brown, a colored woman, was killed after a car driven by Davis left the highway and overturned. The complaint was sworn to by Almer Brown, husband of the dead woman, who charged that Davis was driving recklessly. Six other were slightly injured. Davis was released on \$2500 bail.

## Attorney's Pact Urged By Court

The case of Mrs. Louisa Parker against C. T. Johnson, involving a claim of \$2,000 by Mrs. Parker against Johnson, was under advisement today with Superior Judge Z. B. West, following a trial which lasted two days.

In taking the case under advisement late yesterday, Judge West advised the attorneys to "get together." Otherwise, the court said, he would render a decision within ten days.

Court to the suit which Madame Georgette Le Blanc, former wife of Maurice Maeterlinck, has brought to secure judgment of \$2000 alleged to be due on recitals.

Mrs. Colbert denies each and all of the French actress' accusations and declares that there was no written agreement by which she promised to pay Madame Le Blanc \$750 each for five recitals. Madame Le Blanc says that she has been paid but \$1750 for work which was contracted at \$8750.

The sunshine of good health overcomes the barriers of life.

# MAYO CLOSING OUT MEN'S READY-TO-WEAR

# GRAIN PRICES GAIN ON CHICAGO MARKET

(By United Press Leased Wire)  
CHICAGO, Feb. 8.—Grains showed fractional gains when the market closed on the Chicago board of trade today.

Receiving fine support on dips wheat rallied from the day's low point. Principal strength was in May because of its earlier maturity into cash over other deliveries.

Corn made up its lost ground and a fraction besides. Good buying support showed reports of good export business yesterday and today.

Oats soared with other grains and

# SELL CHALK TO DOPE ADDICTS

## AS MORPHINE

LOS ANGELES, Feb. 8.—Fully a million dollars has been realized by a ring of dope peddlers during the past year, through the wholesale substitution of chalk and guanine

substitution of chalk and gummi for morphine, according to Harry D. Smith, chief federal narcotic agent for the Pacific coast, who was in Los Angeles recently preparing for a "clean up" on dope traffickers.

According to Smith, the "chalk

gang" was at one time virtually in complete control of all underworld dope importations. Recently, however, another gang has supplanted it.

Finding themselves no longer able to compete with the new arrivals in the field, members of the original "ring" held council and

decided to "clean up and clean out." Accordingly they let it be known in the underworld that they had secured several large consignments of morphine from a secret factory in Mexico and that the "stuff" would be sold for a "little less."

Orders poured in. One man bargained for the purchase of 500

ances, for which he was to pay \$50,000, Smith said. The prospective buyer was given samples of high grade morphine at a series of secret meetings, and then when the time came for the completion of the "contract," the wholesalers placed several marked one-cup

Four hundred and ninety of the

artons contained chalk, Smith said. The leaders of the gang then were believed to have disposed of the remainder of their supply of genuine morphine and to have departed from their usual haunts to escape their victim's vengeance. The ultimate consumer of course

not the worst of the whole bargain, for the buyer who had been tung undoubtedly cleared himself of loss by peddling the chalk to addicts who had no comeback, according to the federal agent.

## DOWRYLESS GIRL UNDER HANDICAP

BERLIN, Feb. 8.—Sweet young maids without a dowry have no chance against the widow with a furnished flat, asserts Fraulein Boris Bittner in the Berliner Mittagszeitung. She says matrimony in Germany has degenerated into a

"The marrying game in Germany, has become a parody on love," declares Fraulein Bittner, but it is a tragic parody after all. It is a pity to see the young man

## BACK TO FARM MOVE

## GAINS IN GERMANY

KOENIGSBERG, Feb. 8.—A back-to-the-farm movement has taken place in Germany, especially East

...in Germany, especially East Prussia, according to Dr. von Baecki, former provisional governor of that state. In a lecture recently on rural welfare work he said many farmers' sons who went to war had begun to resume their old tasks on the farms.

After the war, said Dr. von Bock, there was a tendency among the farmer boys to drift to the cities and industrial centers, where there were more attractions. The unsettled conditions and closing of manufacturing plants, with the consequent cutting off of their pay, caused them to drift back to the

This back-to-the-soil movement, the opinion of Dr. von Batocki, will assist in keeping up the standard of living and will be a great aid in putting Germany back on its feet.

### SHORT BOUTS OPPOSED BY LEONARD

Lightweight King Says No  
Chance to Develop In  
Four Round Scraps

LOS ANGELES, Feb. 8.—Benny Leonard, lightweight champion, credited with having more acumen than most ring performers, says four round boxing is useless, futile and will never develop champions. Leonard is in Los Angeles on a theatrical tour.

Four round fights flourish mainly in California and are most popular in the southern part. Seattle and Portland several times have tried to stage successful four round programs, but the northern public does not seem to take kindly to the idea. Longer bouts are much more popular; they might be in California if there was not a state law prohibiting the protracted sessions.

"You'll never develop boxers capable of holding their own in championship bouts as long as your fights are limited to four rounds," Leonard says.

"Can't Develop Champions." "The four round game is tremendously fast and intensely exciting but if any champions develop they will do so in spite of the game rather than because of it," he said.

"In local circles, if they try to feint the other fellow into leading so that they can get a good clean shot at his chin the fans let out a roar that rattles the rafters and as a result all that they do for the whole four rounds is to throw as many punches as possible.

"Aggressiveness is the only thing that counts with the crowd and it doesn't make any difference how many times they miss so long as they look as though they were doing something. Your four rounds never get a chance to use their heads.

"When they get back into the 10 and 15 round bouts in the East they are absolutely lost. They can't keep up the furious pace that is set out here and when they get along to the seventh or eighth or ninth round and their arms begin to get heavy, or their legs give out under them or they hurt a hand or something they're up against it.

"Meantime the Easterner has been taking his time and figuring out a good plan of attack and when the four rounder begins to get heavy in the feet and tired, the experienced boxer feints him into an opening and there's nothing to do but let somebody count who can count up to ten," Leonard said.

Ten and 15-round bouts are the proper length, according to Benny, who explained his criticism was not directed at the four rounders personally but merely intended to show the impossibility of mixing the two systems.

### DEAD MAN'S CURVE AT ASCOT IS FIXED

LOS ANGELES, Feb. 8.—"Dead man's curve" at the new Ascot automobile speedway, on which Jimmy Craft was killed last Sunday, has been fixed, according to George Bentele, promoter, who acted on suggestion of the county coroner.

"We have lowered the steel guard rail on the turns, lowered the inside guard rail and leveled off some bumps and wavy spots at the lower turn of the course," Bentele said. "We are anxious to do everything possible to reduce the risk of injury to the contestants."

Fred Horey, Ralph De Palma, Fred Lieckleider, Freddy Frame and the rest of the Ascot drivers take their last trial spins tomorrow in preparation for the Ruth Law sweepstakes, the Ascot helmet and Arrowhead sprint events Sunday.

### Fights and Fighters

NEW YORK — Pancho Villa, world's flyweight champion, will defend his title against George Marks, California, in Madison Square Garden tonight. Villa is a heavy favorite to win.

McKEESPORT, Pa.—Cuddy De Marco knocked out Frankie Rice, veteran Baltimore lightweight, in the fifth round last night. After the final count, Commissioner Boyle decided Rice "laid down" and fined him \$100 and suspended him from Pennsylvania rings for a year.

WEST  
inds  
Here and There  
in Local Sports  
By Eddie West

In the midst of this unprecedented prosperity era that has transformed Santa Ana and its vicinity from a "town" to a metropolitan city in the course of a few brief years, it is interesting for the sport-lover to look back a tiny bit and take stock of the athletic evolution that invariably has followed in the wake.

Six months is a comparatively short period of time but what changes those few weeks have wrought in the local sporting world! Spend a day or so on the sport editor's desk and see.

In those six months, for instance, baseball has taken tremendous strides. Seven clubs in the Orange County Harbor league are having the most strenuous battle for championship honors the organization has ever known. There are three Santa Ana nines in the scramble. It was only last winter that it took a lot of persuasion to get one in the race.

The showbiz at Irvine grow larger ever Sunday. George Sisler and Jimmy Austin, past and present manager of the St. Louis Browns, are wintering at Laguna Beach and just the other day signed two Santa Ana lads for a whirl in the big show.

Efforts are being made to organize a Santa Ana club in a Class C league and a group of outside sportsmen is willing and anxious to finance the thing to the extent of \$8,000.

The Santa Ana Country club's beautiful new golf course, one of the best in the West, is coming right along. President C. G. Twist

announced today that the first nine holes would be completed and ready for play in about two weeks. The grass is being given its daily watering by giant whirlers, sprinklers that hurl a spray more than 100 feet in circumference.

In the last few weeks a new junior high school has been completed, doubling the amount of grammar school athletics.

They are rushing to completion a new \$200,000 Y. M. C. A. structure here that will give hundreds the opportunity of learning how to swim, wrestle and box and play volleyball, hand ball and tennis and a half dozen other body-building activities.

Athletics are going full blast at the local high school where they now realize that it builds, rather than tears down, when a school girl participates in outdoor exercises like basketball, tennis, swimming and hockey.

HOSE who see no good in athletics and feel that the average student devotes entirely too much time to such endeavor may be interested in the case of Leon ("Chapple") Townsend, Santa Ana high school boy who was the best lineman in the Tri-County league's football season last fall.

Townsend, a happy-go-lucky youngster, found the light of ambition because he developed an interest in football.

Two years ago, "Chapple" was the school bad boy; not really bad, but just an American kid who didn't see any sense in studying, in going to class or in obeying the ukase of any teacher that ever lived.

Consequently the grades that "Chapple" took home were nothing for the neighbors to rave about. It even was rumored once that they were about to "hunk" him out.

Townsend went out for football. He mingled with older boys who possessed ambitions. He saw highly-trained, educated and alert college men play in big games—and Townsend saw the light. He decided he'd like to go on to college.

Believe it or not—when they passed out grades at Poly the other afternoon Leon Townsend, the former school "bad boy," received such high grades that he missed, by the narrowest of margins, making the high school Honor society.

A corps of workmen are busily engaged constructing a five-alley bowling parlor in the basement of the Broadway building for Harry Gaspar, for six years a pitcher with the Cincinnati Reds.

Gaspar has no way of knowing at present when he will be able to open for business because some of the necessary materials have been delayed en route here from the East.

A dozen local bowling teams are ready for the word to go. They will be in the Santa Ana Bowling league that Gaspar plans to form the first week he opens shop.

### POLY FIVE OPPOSES PASADENA TONIGHT

Anderson, Star Center, Is  
Lost to Locals on Eve  
Of Important Tilt

Nearing the close of its 1923 season, the Santa Ana high school basketball team tonight at 7:30 o'clock on the Y. M. C. A. court at Orange will clash with the Pasadena high quintette, undefeated leaders of the Tri-County hoop league.

It is seldom that a tallender rises up in wrath and swats the champions but that is what Coach Ed Covington and his Poly cohorts have vowed they will do to the Crown City five.

The locals will be without the services of big Verlin Anderson, crack center, who has been one of Covington's best men all year. Anderson, the third player lost to the squad this season, is taking only one subject at the high school this semester and will be ineligible for further athletics.

His place at center will be taken by Carl Lacy, fullback on the Poly football eleven last fall. Lacy has had considerable experience at the cage game and has shown a lot of class in the games he has played.

Covington announced today he would start the following lineup against the visitors: Bowe and Golden, forwards; Lacy, center; Burns and Cook, guards.

### FRANCES E. WILLARD TEAMS LOSE TWICE

The Huntington Beach eighth grade basketball teams won both games from the Frances E. Willard eighth graders, in a double-header played here yesterday.

The Willard 100-pound five lost to the Beachcombers by a score of 8 to 5, while the first team was defeated, 20 to 13.

The Huntington Beach boys outplayed the Willard squad in every way. They showed more accuracy in shooting, were faster and excelled in teamwork. The 100-pound teams were evenly matched and the outcome was in doubt almost to the end.

The line-up:  
Willard Pos. Hunt. Beach  
Goetting F Bertin  
Hillman F Berris  
Sullivan C Lewis  
Blakeney G Moomaw  
Velarde G Parsons

### Country Club to Award Building Contract Feb. 18

C. G. Twist, president of the Santa Ana Country club, today stated that through a misunderstanding the specifications and plans for the new clubhouse have been out previously without the approval of the club's building committee.

Bids for the structure, which will be 232 feet long and 85 feet wide, will be received until February 18 when the contract will be awarded. The building will cost approximately \$75,000, according to estimates.

### Pomona Cage Men Meet Branch Five

LOS ANGELES, Feb. 8.—Only basketball game on the Southern California schedule this week-end is the Pomona-University of California Southern Branch contest Saturday night. The game has been shifted from one date to another for the past week, but it is announced that this one is final.

### Young Dudley Is Beaten in North

TACOMA, Wash., Feb. 8.—Eddie Roberts, Tacoma welter, packed too much punch here last night and copped a six round verdict over Harry ("Young") Dudley, California welter.

Radio Supplies, Hawley's.

### VIC RUEDY GATHERS FORMIDABLE TEAM TO OPPOSE BEANPICKER OUTFIT SUNDAY

"Red" Billman, the cool little gent who dishes them across the platter for Manager Arthur Trickey's Irvine Beanpickers, will have his hands full disposing of the Anaheim Merchants next Sunday at the cross-roads park if the lineup sent here by Manager Vic Ruedy of the Mother Colony nine actually takes the field to oppose him.

Ruedy has collected one of the most formidable clubs now playing baseball in Southern California and he has vowed to make the three game series with Irvine go just to two games.

Holman, Arizona Copper leaguer, who has been leaving some drossy games for the Merchants, probably will take the slab for the visitors although Ruedy has two other good staff men in Herb Salvesson and

### EXTERMINATOR READY TO GO AT BORDER CITY RACE TRACK

EXTERMINATOR, WITH JOCKEY JOHNSON UP

Exterminator, Willis Sharpe Kilmer's famous route-goer, and one of the most consistent horses that ever stepped on a track, is soon to make his first start at Tijuana, Mex., where he is being groomed for the rich Coffroth Handicap and Tijuana Cup races, March 30 and April 13, respectively.

Exterminator can step over a sprint or go the long route, move along in slop or on the fastest of tracks. Man O'War, Zev and Winsglass alone top him in purses won.

Jockey Albert Johnson, the young reinsman who rode "Old Bones" in most of his Eastern successes before he was retired two years ago, has come West to have the leg-up on the veteran at Tijuana.

The first of the big purse races will be held at the border city track February 17, when such good ones as Dominique, Little Chief, Belle of Elizabethtown, Doc Horn, Abadane, Osprey, Buster Keaton, Prince K and Lady Gorcham clash in the Speed Handicap, over five and one-half furlongs, for a \$4000 added money stake.

### MRS. MALLORY TO PLAY FOR NORWAY IN PARIS GAMES

NEW YORK, Feb. 8.—Mrs. Molla Mallory, regarded by the international Olympic committee as a woman without a country, has decided to play in the Paris games for Norway. The former American champion, barred from the American team because she competed in the 1912 games for Norway, was made eligible to compete for her native land by a later ruling of the committee that an athlete need not be a citizen of the nation for which he competes.

The American team will sail either June 4 or June 7. The tennis association has not decided definitely on the number of players to be sent as a team and has done nothing definite toward the selection of the team.

It is considered almost certain here that Miss Helen Wills, the young national champion will be permitted to make the trip and she will be the leader of the woman's team which is to play the British woman's team for the Wightman cup.

Mrs. George Wightman, wife of the president of the association, and Miss Lillian Schermann, the Brooklyn girl star, also are considered as candidates.

Billy Johnston, the California star, announced some time ago that he could not get away from his business to make the trip to the games and Bill Tilden, the American champion, said he felt he should not go unless the committee thought his services essential to the success of the team. It is probable that Tilden will be prevailed on to go as the captain of the team and that "Vinnie" Richards and Dick Williams will be two members of the team.

### NOTICE TO PUBLIC

This is to notify the public that I have leased for three years the slaughter house, equipment business and good will of Fred Hutter, located at Delhi road and McCloy street, and that I am legally and morally entitled to the "going business" and patronage of the said Fred Hutter. And by good service and fair dealing I hope to merit the same. Phone 278M. Home address 817 South Flower street.

J. E. HUNT.

### MASKED-MARVEL IN POOL VICTORY HERE

Mysterious Cue Expert Has  
Tough Breaks But Wins  
From S. A. Player

Fighting tough breaks almost all the way through his match, the Mask-Marvel, highly-touted cue wizard, showed only ordinary skill at the Valencia pool parlors here last night when he defeated Clere Friers, local expert, by a score of 100 to 62.

The best thing about the mysterious visitor, who entered the hall with a black mask over his face and left the same way, was his sportsmanship and willingness to play an open game with his youthful antagonist.

Friers got off to a lead and retained it almost to the fifty mark when Mask-Marvel sewered on one tremendous break shot and was left hopelessly sewed up on another. After trailing this far, the shrouded one made a beautiful break and quickly cleared the table. He was left badly, however, and missed a bank shot for the end of his lineup string.

Friers knocked off a few balls and then watched the Mask-Marvel, from a good leave, make his highest run, 32, and miss only on a difficult bank shot when froze to the end of the lineup.

During the match the winner ran the table four times and had another run of fourteen to finish the contest. Friers' best mark was twelve.

Before the 100-point tilt, Mask-Marvel entertained for half hour with an excellent demonstration of trick and fancy shots.

### MRS. HUTCHINS IN GOLF SEMI-FINALS

LOS ANGELES, Feb. 8.—Playing incomparable golf, Mrs. H. M. Hutchins of Winnipeg, Canada, won the right yesterday to meet Margaret Cameron of Los Angeles today in the final round of the women's midwinter golf tournament here.

Mrs. Hutchins took a brilliant victory from Mary Browne, 3 up and 2 to play. Miss Cameron startled the gallery by her excellent green work, which enabled her to defeat Doreen Kavanagh 4 and 3.

### 'DARK HORSE' TEAM GETS ACID TEST

Win For Undeclared Truck  
Club Will Settle Race;  
Laguna Draws K. C.

Harbor League Standing.

	W.	L.	Pct.
Van Dien-Young Co.	7	0	1000.
Laguna Beach	5	2	.714
Tustin K. P.	4	2	.667
Santa Ana Com. Co.	4	3	.571
Santa Ana K. C.	3	4	.429
San Juan Capistrano	1	6	.143
Newport Beach	0	7	.000

### SUNDAY'S GAMES.

Newport Beach at Tustin K. P.  
Santa Ana K. C. at Laguna Beach.  
Santa Ana Com. Co. at Van Dien-Young Co.  
San Juan Capistrano—bye.

The Santa Ana Commercial company, "dark horse" of the Orange County Harbor league, undergoes the acid test in its struggle for championship honors Sunday afternoon.

Winner of its last four games after having been bumped off three times in a row to begin the season, the Ice Makers next stack up against the undefeated league leaders, the Van Dien-Young company club of this city. The game will be played on the Newport road diamond, just off the end of South Main street.

A victory for the Commercial squad not only will give it a chance for premier honors but will keep two other aggregations in the running, a Van Dien-Young company win and its just about all over but the formality of playing through the rest of the schedule.

The Ice Makers were trounced by Laguna, 11 to 6, in the first game of the season, dropped another to the Van Dien-Youngs, 10-3 and its third to Tustin 6 to 4. Since then they have recorded four victories in a bunch.

Pitching Duel Expected.  
The game should be a hurling duel between those two clever mound men. Hoover for the Commercial and Jackson for the Van Dien-Youngs.

The Tustin Knights of Pythias draw the tallenders, Newport Beach, so they should have little difficulty in hopping up a bit in percentage row. Laguna Beach, victim of two one-run margin defeats and one a 12-inning thriller, gets more competition in the Santa Ana council, Knights of Columbus, nine that has played splendid ball in spots.

Anna Q. Nilsson in a scene from "Thundering Dawn," production which begins two-day engagement at the Yost theater tonight.

Charles Jones who takes leading role in "Cupid's Fireman," picture which opens at the West End theater tonight.

Charles Jones who takes leading role in "Cupid's Fireman," picture which opens at the West End theater tonight.

**TONIGHT'S ATTRACTIONS**  
**WALKER**—"The Eagle's Feather," with James Kirkwood.  
**YOST**—Vaudeville and "Thundering Dawn," with J. Warren Kerrigan and Anna Q. Nilsson.  
**TEMPLE**—"A Woman of Paris," with Edna Purviance.  
**WEST END**—"Cupid's Fireman," with Charles Jones.

**"CUPID'S FIREMAN" AT WEST END TONIGHT**  
Commencing with a special screening in New York before high officials of the fire department, continuing in other cities and now due here, the screen version of "Cupid's Fireman" has been accorded the most extravagant praise. This picture comes to the West End theater tonight for an engagement of two days, with Charles Jones in the leading role and Marian Nixon opposite. The story was taken from "Andy McGee's Chorus Girl," by Richard Harding Davis.

The story concerns a fireman who is detailed to theater watch, where he falls in love with a show girl. Then, as Richard Harding Davis could weave a plot, the yarn develops rapidly, affording the hero ample opportunity to "show his stuff." As the reckless, life-saving fire fighter Charles Jones is as good, or better, than he usually is in his Western dramas, according to advance announcements.

The Los Angeles fire department gave every assistance, so that scenes are real and the life portrayed on the silver sheet is actually that which regular firemen live.

**"THE EAGLE'S FEATHER" AT WALKER'S TONIGHT**  
A stampede of four thousand cattle, filmed at great risk to the players and forms one of the many thrilling episodes in "The Eagle's Feather," the Metro pictureization of Katherine Newlin Burt's famous story of the same name, now show-

ing at Walker's Orange County theater.

The stampede was filmed in the vicinity of Convict Lake located in the high Sierras above the little town of Bishop on the border line between California and Nevada. Great cattle ranches sprawl for hundreds of miles through this beautiful valley and here millions of cattle are rounded up several times during the year and sent to the slaughter houses through the Middle West.

The great herd which figures in "The Eagle's Feather" stampede was driven for more than one hundred miles from the famous Smithsonian Ranch in California to the location near Convict Lake. So vast was the enterprise that no ranch owner in the vicinity was willing to lend his herd for this scene, claiming that the value of their herds would greatly depreciate if they were hard driven. Finally, as the only way out, Metro Pictures Corporation temporarily took the entire management of the Smithsonian Ranch, holding itself responsible for any accident to the herd or loss of value during its proprietorship.

**CAPACITY HOUSES SEE NEW CHAPLIN DIRECTED FILM**  
"A Woman of Paris," the first Charles Chaplin serious production continues to attract capacity houses to the Temple theater.

The picture, written and directed by Chaplin, marks a new departure in almost every element that goes to make up a motion picture.

Almost an entire year was consumed in the making of "A Woman of Paris" and while there are no huge sets, no mob scenes, no elaborate mechanical effects, the time devoted was in the perfection of the action and the fidelity to detail in the treatment of the story.

Edna Purviance, who has been identified with Chaplin in almost all of his comedy productions, rises to great heights in her career as the star of "A Woman of Paris." Adolphe Menjou, well known screen actor, plays the leading male role.

**"THUNDERING DAWN" OPENS AT YOST TONIGHT**  
Thunderstorms, a typhoon and a tidal wave took place in Hollywood, Universal City and on nearby California beaches.

This isn't a weather report—just the engineering schedule for the new play which Harry Garson directed with massive mechanical scenic effects in "Thundering Dawn," coming to the Yost theater tonight for a two-day period.

The director chose for leading roles in his cast J. Warren Kerrigan and Anna Q. Nilsson.

The story, written by John H. Blackwood, is one of a man's regeneration through disaster, and the climax is a disastrous typhoon and tidal wave, located on the Malay Peninsula. The action of the play starts in Back Bay, Boston, and proceeds to Java during the "Six Months Rains" of the tropics. The title of the play indicates the dramatic character of the tropical storms.

**Sacramento Faces Serious Problem**  
SACRAMENTO, Feb. 8.—Sacramento is the rendezvous of several hundred unemployed men, a situation, according to A. G. Anderson, manager of the local State Free Employment bureau.

# MAN IN MIAMI REFUSES TO PAY RENT

MIAMI, Fla., Feb. 8.—C. M. Cravatt has solved the high rent problem in a new way.

Cravatt and his family have lived in a residence here since April, 1919, without paying a cent of rent, and despite legal efforts of the owner to dispossess him.

"My house is my castle," says Cravatt, and he has six court decisions to back him.

Here is how he did it:

Cravatt leased the house in April, 1919, for two years, with an option to buy at \$17,500. He claims he exercised the option by making an offer, but the owner did not give him a deed. The owner contends he was not offered cash and that Cravatt did not fulfill his obligation.

In the meantime the lease expired, but the Cravatt family continued to occupy the home, refusing to pay rent. The owner then instituted suit for unlawful detainer and lost in the courts. He then instituted a landlord and tenant action, and Cravatt won, as he did in a subsequent similar action.

The legal fight then shifted to the circuit court, where the owner again lost on landlord and tenant proceedings. Ejectment proceedings also failed. An original and four amended bills were then filed, and this suit is still pending.

The owner, however, continued his fight and filed a new suit for unlawful detainer in the hope of obtaining ejectment or to force the occupant of the house to start proceedings.

Cravatt, however, continues to occupy the house without paying rent.

# BEACH LIQUOR ROW OPENS POLICE QUIZ

(By United Press Leased Wire)  
LONG BEACH, Feb. 8.—Police of Long Beach were today investigating the activities of two former officers, who are alleged to have last night boldly carried a young local matron from a dance hall.

I. R. Newman and J. T. Muir, discharged from the force last October, have been persecuting Mrs. Lola Sims, 21, ever since they found her in a local hotel when they were members of the force, carrying a pint of liquor "to a sick friend." So stated the authorities.

Mrs. Sims alleged that Mrs. Newman ordered her from the dance hall, saying she had a warrant for her arrest on a charge of violating the Wright Act. When Mrs. Sims refused to leave, Muir, who was standing nearby, gathered her in his arms and carried her out.

Mrs. Sims was greatly humiliated, she declared, and the crowd was excitedly curious.

# Cascara Removed From China Wine

SAN FRANCISCO, Feb. 8.—Discovery that Chinese were attempting to remove the medication from several hundred jars of cascara was made by Captain of Police Arthur Layne yesterday in a cellar below an alley off Stockton street.

Cascara and coloring matter which had been put into the Chinese wine to make it unfit for beverage purposes was being filtered out with cloth and charcoal. James Lou, in charge, told Layne the filtering was being done with the knowledge of the Treasury Department. Layne notified the prohibition authorities, who arrested the Chinese.

# Modesto Letter Carriers Elect

MODESTO, Feb. 8.—Dale Ferguson was elected president of branch 1291 of the National Association of Letter Carriers at the regular meeting of the association, held last night at the home of Alfred Case, while H. Geery was made secretary of the Modesto association and Alfred Case, nation-

al secretary. The members discussed the campaign for a higher living wage and means for obtaining the Saturday afternoon half holiday without additional expense to the department.

The general welfare of Garden Grove will be largely benefited by this hearty co-operation as demonstrated by the meeting Tuesday.

(Watch Garden Grove grow.)  
Mrs. Estelma Woodhouse was the charming hostess to the Home Economic club Tuesday afternoon when they met at her home on West Ocean avenue. Mrs. Helen Holt, newly elected president, presided over the business session, after which preparations were made for a Valentine party to be held on Friday evening Feb. 15 at the home of Mrs. Marie Nichols. Programs for the coming year were given out.

Fancy work was the order of the day and the afternoon closed with dainty refreshments.

In addition to the hostess those enjoying the affair were Mesdames Helen Holt, Mildred Smiley, Laura Smith, Marie Nichols, Lena Schroeder, Flora Smith, Hortense Rosset, Winifred German, Eva Winters, Helen Dungan, Laura Schwanitz, Claire Christiansen.

The total assets of the Citizens' bank reached \$200,000 Tuesday, Feb. 5.

W. W. Lake has leased the building owned by Mr. Darling, formerly known as the Nippin Pool room. The inside of the building has been remodeled and painted, and up-to-date equipment for a restaurant is being installed.

Mr. Lake will be ready to serve the public in a week or ten days.

## ANNOUNCE CAST OF JAPANESE OPERETTA

GARDEN GROVE, Feb. 8.—The following is the cast of characters in "Princess Chrysanthemum," a Japanese operetta by C. King Proctor, which is to be presented by the Garden Grove high school girls' Glee club Saturday evening, March 1st, at the Woman's Civic club house.

Princess Chrysanthemum, the Emperor's daughter—Cynthia Kirven; To To, Catherine Miller; Yum Yum, Norma Larsen; Du Du, Katherine Kirven—maidens attendant on the Princess.

Fair Moonbeam, the Princess' god genius—Marion Marsh; The Emperor, What-for-Whi, A Merciful (?) Monarch.

Prince So Tru, Eulala, Hapes; Prince So Sil, in love with the Princess, Marie Newman; Top Not, the Court Chamberlain, Frances Bragg; Saucer Eyes, the Wizard Cat, Luis Russell.

Spirits: Frances Dungan, May Marsh, Myra Bragg, Clara Poole, Mildred Dunlap, Rosemary Thompson.

Fairies: Birdie Baker, Lucile Smith, Helen Knox, Pearl Black, Dorothy Whitesell, Alma Shackelford.

Chorus: Ruth Bonner, Fern Wilson, Beth Cooper, Catherine Cosner, Marie Everett, Zula Hapes, Emma Lehnhardt, Evelyn Smith, Jesse Wiley, Myrtle Ziegler, Cecile Castan, Ethelyn Lee, Elizabeth Buckheim, Bernice Buckheim, Genevieve Buckheim, Alma Keld, Verda Williamson.

## Southern California

EL CENTRO.—Gross extravagance and disregard for taxpayers' rights are charged against the Imperial Irrigation District officials in a final report made by the Imperial county grand jury to Superior Judge Conlin. The report also scores the county's school system declaring that teachers' salaries are high and that wasteful expenditures by school officials have resulted in the spending of 75 cents of every dollar received by the county for taxes in supporting the system.

LONG BEACH.—Long Beach harbor may become the first port of call for a large number of steamship lines controlled by the Panama Railroad and the Panama Steamship company. It was indicated here by City Manager Windham. This statement was made following conference between S. W. Heald, general superintendent of the two big transportation systems, and city officials.

AZUSA.—With reminiscences of times long gone by and a cordial hand-shake for the friends who kept dropping in to wish him happy returns H. A. Williams, first mayor of Azusa and the city's oldest citizen, celebrated his ninety-ninth birthday. A baker friend presented him with a huge and elaborately frosted cake and many other gifts were tendered by old acquaintances.

SAN FERNANDO.—The City Trustees have given the formal order for the preparation of plans and specifications for the trunk line sewer and septic tank-sewer farm disposal plant. The means that the April ballot will carry an item proposing indorsement for a \$75,000 bond issue. Option has already been secured on a fifty-five acre Pacoima wash tract as a site for the disposal plant.

BURBANK.—The Burbank Civic Betterment association has chosen A. E. W. Yale president. The new vice-president is G. R. Pendell, and the secretary-treasurer W. S. Walker. At an early meeting it is the plan of the organization to discuss municipal politics, with a view to selecting or indorsing candidates to fill the vacancies at the April election.

AVALON.—Among his many beneficiaries, William Wrigley, Jr., on behalf of Mrs. Wrigley and himself, has presented to the city of Avalon, Catalina island, a new hospital building including the grounds on which it is to be built. The hospital will be of Spanish construction, three stories in height, and will be equipped with the most modern

furniture, operating room, surgical instruments, etc. That the hospital, including site, building, furniture and equipment will be an Avalon institution for Avalon people, is the announcement made by the donors.

POMONA.—Preparations for the expenditure of approximately \$400,000 for street improvements were begun when the City Council unanimously passed a motion instructing City Attorney Joseph Alford, Jr., to take the necessary legal steps toward calling a bond election for April. Estimates on work now planned aggregate \$354,781 as shown by City Engineer Froehde's figures, but changes in specifications and additions of one or more streets for which petitions are expected next week, will probably raise the cost to the former figure.

EL CENTRO.—"We are thinking of standing them up as there is hardly room for them to sit or lie down," declared Sheriff Gillett, referring to the steadily increasing number of prisoners at the County Jail. The books now show 109 inmates of the jail, which was originally built to accommodate forty. Five and six prisoners have been placed in each cell, which has room for two. The county grand jury, examining jail conditions recently, declared them serious from the standpoint of health and is expected to recommend the construction of additional wings to the present building.

POMONA.—Construction of Pomona's new north side fire station at the southeast corner of Garey avenue and Alvarado street will begin as soon as a contract can be let. Immediate construction of the building, installation of equipment and stationing of a crew of fire fighters there was assured when \$25,000 bonds issued by the city of Pomona for this project were purchased by the First National bank of this city.

## FLAMES PERIL L. A. COUNTY RECORDS

(By United Press Leased Wire)  
LOS ANGELES, Feb. 8.—Endangering valuable county files, fire did approximately \$15,000 damage in the hall of records, before it could be brought under control.

Believed to have been started by defective wiring, the blaze was discovered by the janitor, eating up the furniture in the county recorder's office copying room. Scores of desks and chairs were consumed.

Only the fact that precious documents and records were kept in fire-proof safes and storage vaults saved them from destruction. Whether any of the files were damaged by the heat could not be learned until the records are cool sufficiently to permit them to be opened.

Fireproof doors kept the flames from spreading from the one room, although it was feared that water would soak through and damage the main floor offices below.

## Smallest Motor Works Perfectly

HILLSBORO, N. D., Feb. 8.—Ivan T. Nedland, jeweler, is the inventor and maker of what is said to be the smallest electric motor in the world. It is less than a quarter of an inch in length, but perfect in all details and operates faultlessly. About six years ago Mr. Nedland made and exhibited the smallest steam engine in the world that operated perfectly.

PLANS "ONE MAN" JOURNEY  
PARIS, Feb. 8.—Following his feat of crossing the Atlantic last summer alone in a little sloop, Alain Gerbault, the young French sportsman, will start next May on another one-man cruise the rest of the way around the world.

## It's Time to Plan Your Gardens and Lawns

Yes, it will soon be time to plant—and good tools will help to prepare the soil properly and to raise healthy crops. We are ready now with a complete assortment of rakes, hoes, weedeaters, cultivators, planters, trowels, turf-edgers, lawn mowers, garden hose, hose reels and sprinklers. Buy garden tools at Crescent Hardware Co. and you'll find every tool a good one and every price reasonable. See our window display.

# DOMESTIC ECONOMY IS EASILY LEARNED

YOU can take a free lesson every day, simply by reading the advertising columns of this paper.

No matter how well you run your home—OR YOUR BUSINESS—it can be done better and more economically. The advertisements teach efficiency in buying. They show you the cheapest and best markets.

They help make housework lighter by telling about the newest conveniences and labor-saving devices. The merchant or business man can get a good line on a thousand and one things that will help him materially.

No home and no business can progress by standing still. The advertisements help you keep up with the bandwagon.

If you want a real lesson in economy,

ANOTHER REAL ESTATE SENSATION!

# IMPROVED LOTS ONLY \$1.00 per week

No Interest for Six Months

YOU GET THE FULL OIL RIGHTS

PRICES ONLY \$450 up Improvements FREE

Terms Only \$10 Down and One Dollar a Week

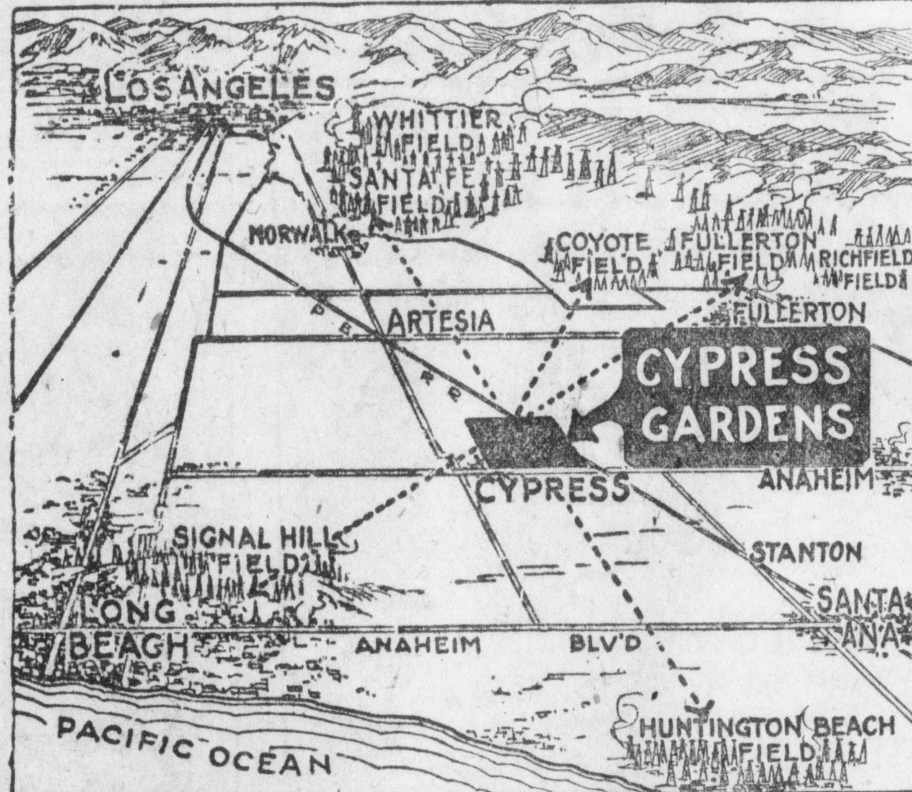

## Beautiful Cypress Gardens Grand Opening Saturday and Sunday

HURRY! Be among the first and get the choice. Delay is dangerous. Come at once and get the best lots at the cut prices and terms in this magnificent property.

Here at beautiful Cypress Gardens is everything that is needed for home or investment. Splendid boulevards. Ideal garden soil, as level as a table. Water piped to every lot. Streets graded and surfaced. Car line a short walk. Long Beach only eight miles away. Cooler in summer—warmer in winter than right here in the city. Come, see the wonderful development here. Schools, stores, homes, churches. Hear the busy hammers and the hustling workers building dozens upon dozens of homes. Come see the derricks drilling for oil nearby. We make no claims for oil, but whatever oil rights there are you get. So hurry out at once. Whether you buy or not you will enjoy the ride and you will be surprised when you see the amazing development in this section. Good fortune and good judgment are calling you to Cypress Gardens. Put a ten dollar bill in your pocket, and hurry out.

## BIG OIL PROSPECTS AT CYPRESS GARDENS

IDEAL FOR GARDEN HOMES  
IDEAL FOR INVESTMENT  
STUDY THIS MAP

Notice that lines drawn from the great oil fields, Coyote Hills, Santa Fe Springs, Signal Hill and Huntington Beach pass directly through Cypress. About a thousand yards east of Cypress Gardens a well is now being drilled. The big companies have faith in the field, and they are grabbing leases and paying big bonus. But remember whether there is oil or not, Cypress is an up and coming town. Splendid schools, rich orange groves, boulevards, electric railroads. Just watch the town grow and watch the values jump at Cypress Gardens. Think of the many dollars you waste. Put just one little dollar a week to work for you at Cypress Gardens and watch your profits grow.

SPECIAL NOTICE—Many people wonder how we can offer such remarkably good property at such ridiculously low prices and terms. The answer is simply large capital and quick turn over. We use great care in selecting our tracts. We wait until we get a bargain. We have plenty of capital and can command a low wholesale price, which enables us to give you a bargain. We make a big saving on commissions and advertising. Because of our low prices and terms we often sell an entire subdivision in two or three days. This is the tenth

tract we have sold and every buyer will make a profit. Our last tract, LAWNDALE GARDENS, consisting of 375 lots, was sold in three days. We know Cypress Gardens will sell in two or three days, so hurry out at once, or you will be too late. Keen investors and home seekers will quickly take these lots—hurry out before your lot is sold.

COME OUT NOW. TODAY. PUT TEN DOLLARS IN YOUR POCKET AND COME AT ONCE. HURRY! HURRY! All you need is a ten dollar bill and a little energy to own a fine home place.

## TO REACH PROPERTY

Take Pacific Electric Santa Ana Line. Get off at Shirley Street, Cypress. Walk one block south to property. By auto: From Los Angeles, drive out east Seventh Street to Downey Boulevard to Santa Fe Springs. Follow that boulevard through Norwalk and Artesia. At Artesia turn on Lincoln Boulevard to Cypress. Cypress

Gardens is five blocks east of the big oil derrick in the center of Cypress.

From Santa Ana, Fullerton and Anaheim, take Lincoln Boulevard to Cypress.

From Long Beach, take Pomona bus which passes property. By auto from Long Beach, drive to Artesia, then east on Lincoln Boulevard to Cypress.

From all points, boulevard all the way.

COME SUNDAY. YOU WILL ENJOY THE DELIGHTFUL DRIVE AND SURELY WILL MAKE A PROFIT ON YOUR PURCHASE. BUT HURRY.

## DOLLAR LAND CO.

WILCOX BUILDING

Los Angeles, Calif. Second and Spring Sts.

But come to Tract Office on the property at Cypress Gardens.

WANTED—Your old furniture in exchange for new. DICKY-BAGGERLY FURN. CO., 302 E. 4th St. Phone 634-M.

BEST PRICES PAID. For used furniture, of all kinds of furniture repaired. S. A. Furniture Co., Phone 866. 409 E. Fourth.

WOULD PAY small rent and store piano for use of same. Very best of care guaranteed. (By musician). Phone 1542-R.

**EVENING SALUTATION**  
"When eve is purpling cliff and cave,  
Thoughts of the heart, how soft ye flow!  
Not softer on the Western wave  
The golden lines of sunset glow."

### NEW COUNTY BUILDINGS

In letting a contract this week for the construction of a new jail, the Board of Supervisors took another step in its plan for giving this county adequate facilities in its group of county buildings in Santa Ana. Without calling for bonds, the supervisors, out of the usual receipts of the county, have constructed a county garage and are now completing a fine hall of records.

It is less than a quarter of a century since the old courthouse and jail were constructed. Fifteen years ago, it became necessary to utilize a part of the basement of the courthouse in order to make room for spreading out of county business. A few years later, with the basement fully utilized, the supervisors had to provide rooms elsewhere for the offices of the superintendent of schools and the county law library, and two years ago the tax collector's office was moved into a nearby business block.

The completion of the hall of records means that within a few weeks the county will again be doing all of its county seat business under its own roof. Plans for the future include extensive improvements in relation to the old courthouse. In using the word "old" in relation to the courthouse, we do not mean to imply that the building is dilapidated or worn out, or anything of that sort, for the building is no more than well entered upon its period of usefulness. The use of the word merely indicates that in this county our progress is so rapid that it takes but a few years for us to go by a given point.

### "DEAD HAND" IN CHARITY

An article in Collier's Weekly brings up such facts as these, regarding bequests made long ago for specific purposes:

There are still funds available in American cities to redeem captives from the Barbary pirates, whose depredations were ended a century ago; to provide snuff for old ladies in districts where there are no longer any families living, even if snuff were still used; to assist fugitive slaves and to help gold prospectors stranded in St. Louis en route to the Far West.

There is a big endowment in England to care for the poor in a certain parish, where there are now only half a dozen families residing, and no poor among them.

In all these cases the money cannot be used at all, because it was provided for a specific purpose which is now impracticable. Vast sums are lying idle, in this and other countries, which would be available in great emergencies, like fires, earthquakes and other disasters, if the donors had only been thoughtful and liberal-minded enough to make the terms of their gift broader.

It is a powerful argument for such municipal "foundations" as are now beginning to spring up in American cities, with authority to handle funds entrusted to them for general purposes of philanthropy, according to the best judgment of the trustees at any particular time.

Such arrangements eliminate the "dead hand" from philanthropy, and do the philanthropist gives themselves a service by adapting their gifts to the uses of the distant future, expressing their spirit but doing it in ways which they could not foresee.

Death is ennobling. Every little fur-bearing animal becomes seal when it dies.—Roanoke World News.

### PRESIDENTIAL TERMS

One of the presidential candidates is urging again the familiar proposal of making the presidential term six years, with the executive ineligible for a second term.

It is argued that this would tend to lift the presidency above politics, because there would be no need of maneuvering for a second term, and that the administration of governmental affairs would therefore be more effective. There would be less frequent disturbance of business, too, with presidential elections coming only once every six years.

Nevertheless the proposal is not likely to meet with any more favor now than it has in the past. The President, even if he is not open to re-election, cannot be "above parties" in this country unless his office is made as colorless and ineffective as that of the French presidency, and there is provided a separate party leader responsible for legislation. That would be a difficult change to make.

As long as the President remains both chief executive and party leader, there is more likely to be a demand for shorter than longer terms, in order to bring the government readily into harmony with changes of national sentiment. Political situations change more rapidly nowadays than they used to. It would be intolerable, even in this conservative country, to have a government dominated by the same President, without recourse, for four or five years after the nation had wearied of his policy. The public becomes very restive about the United States senate, at times, for this very reason.

People are hungry for praise, especially when they haven't done anything to deserve it.—Puns-tawney Spirit.

### BUSINESS HELP NEEDED

Gen. Dawes may find another job awaiting him in Hungary. That distressed country, having persuaded the League of Nations to raise a loan for it as the league did for Austria, insists on having an American banker furnished along with the loan, to straighten out Hungarian finances. Who is better fitted for the work than the man who created the American budget and is now engaged in balancing the German budget?

Another man, however, may be found without much difficulty; and indeed, the report is that such a man has been selected already.

Ruch America is richer in business ability than in anything else. American business realizes that it will benefit by restoring sound business conditions in Europe. Our business experts can go into foreign countries, there invited, and by their combination of skill and political disinterestedness can help greatly in the work of foreign reconstruction, without committing their own government in any way.

That is both a practical and a philanthropic work.

When Europe is helped to its feet, our foreign market is improved, business conditions at home respond, and the better feeling that comes from getting rid of economic anxiety lessens the chances of further war.

### Desert Road Construction

**Riverside Enterprise**

There is something in desert highway construction that made an impression upon visitors to the Holtville-Yuma route the other day, when state and government engineers viewed a patch of desert highway, almost as smooth as a pavement and over which cars can go easily at a rapid rate but which has not required any of the usual wetting or other usual paving requirements. E. Q. Sullivan, division engineer for the state highway commission, has developed roads of this character in Northern California desert districts most successfully and was pleased to find that experiments in Southern California are even superior to those of the north for the work, partly owing to assistance from prevailing desert winds.

Briefly, the new system consists of plowing and otherwise stirring up the proposed roadbed, containing its sand, gravel and rocks. It is dragged constantly for several days or a week, and if heavy winds prevail blowing off the fine sand, it is better. During this time it gradually develops a dry pack, over which cars can drive rapidly without sinking into the sand, just as they do on a hard beach. Friction of the particles of rock and sand is such as to cause the surface to sustain automobiles readily that are traveling at any rate of speed greater than 10 miles an hour. When the dragging operations bring the road to its best state, on infrequent dragging is necessary. Roads can be built in this way for \$1,500 a mile and are as easy to ride over as those costing \$30,000 for hard pavement.

The building of highways through rocky and sandy desert regions, where water is almost impossible to secure may be revolutionized by this new method being tried out by Sullivan in this district.

### Be More Considerate

**Pasadena Star-News**

Why are great men in this country not shown proper appreciation while they yet live? There is too much cautious criticism of great men in public life. Too much nagging. Too much abuse. Too little demonstration of respect and appreciation. It has been so from the earliest days of the republic. The practice persists. From George Washington to Woodrow Wilson there has been grudging recognition of great national service while the great man lived. Only after death has dulled the ears and closed the eyes of the truly great, is the full meed of honor vouchsafed.

Goodly numbers, it is true, stand loyally and faithfully by great public men through the thick of criticism and calumny. But there are vast numbers, in this generation, and there were vast numbers in generations ago, that gave and give—but grudging recognition to greatness while the great are alive. What a comfort it would have been to the soul of Abraham Lincoln if there had been a great popular outpouring of sympathy and affection for him while he was in the flesh! How it would have warmed his heart to have heard the plaudits of his countrymen, as these plaudits are given now with each recurring twelfth of February!

Wood Wilson, too, would have passed his latter years in peace and satisfaction had he been assured of the regard of his countrymen which will be shown demonstratively after his death. There is a queer quirk in human nature that thus denies to greatness, living, the demonstrations of respect and honor which are forthcoming after the great personage passes into eternity.

### Are Parents Becoming Careless?

**San Francisco Chronicle**

The principals of the Oakland high schools have formulated a set of dos and don'ts for the parents of high school students. There are ten rules in the set, running all the way from denying the youngsters the unrestricted use of the family automobile to limiting their dancing to not later than 11:30 p. m. In between there are suggestions about dress, spending money and the desirability of impressing upon the child a respect for the property and the rights of others.

No doubt the dos and the don'ts of the high school principals are good. But why the urge to appeal to parents to do those things which their own knowledge and their own good judgment should tell them were necessary to do? Is it an intimation that the modern parents are inclined to permit their children to do pretty much as they please, without restraint and without discipline?

Probably there is too much of the idea in the home that little Johnnie and Sister Sue can do no wrong; that they are the pride and joy of the family, and that when they overstep the bounds of propriety it is just kids' pranks.

That may be all very fine for the youngsters for the time being, but they will be called upon to pay the price in the long run, when, instead of proving a credit, they will become a serious reflection on the parental influence and the home environment.

### That Body of Yours

**By James W. Barton, M. D.**

**HEART FAILURE**

Did you ever notice that the expression "he died of heart failure" is not as common as it was a few years ago.

In fact a physician is not supposed to use the expression on a death certificate, because in a sense everybody dies because of the failure of the heart to work any more.

And yet this very failure of the heart, this piece of muscle we call the heart, accounts directly for many deaths.

Not because it has valves that are not closing properly, or that remain partly open when they should be closed, but just because the muscle itself is not strong. Not heart disease at all as it is popularly known.

Take the muscle anywhere in your body, the upper arm for instance, because that is the muscle that, as a boy you liked to exhibit to give other boys an idea of your physical strength. The arm muscle is either getting weaker, stronger, or remaining the same, according to the amount of exercise you take. If you have been doing the same amount of exercise for some time it will remain about the same. This exercise may be just raising your foot to your mouth three times a day, hanging on to the wheel of a motor car, to a strap in the street car, or actually working at manual labor.

If you increase this work or decrease it, that arm muscle will increase or decrease in strength.

Did you ever stop to think that your heart muscle acts just the same way?

You say "That's impossible because my heart is not under the control of my will, and keeps on beating whether I work or not."

That's true, but if you were to keep your body absolutely still for weeks and months the heart muscle would become flabby and soft just exactly like your arm muscle.

If after lying for weeks or months you were to get directly out of bed, and attempt to walk or exercise, your heart would not be able to pump the blood properly, and you would faint away, in fact might collapse entirely.

What is my point?

That you are only just as strong as your heart, and your chances of life rest to a great extent on the actual muscular power of your heart to keep pumping the blood for you.

How can you keep it strong?

No royal road. Just plenty of walking, slow running, in fact any simple regular exercise will do it.

And remember—nothing else on earth will do it.

### Spring Styles

### What All the World Seeks

San Francisco Journal

Nothing is more constantly spoken of than happiness. Happiness is the goal of religion. It is the objective of philosophy and science. It is the dream of the wretched. It is the quest of the whole world—the great hunger of mankind. The desire for it is insatiable and universal and uplifting.

Why does man carry on business and trade? That he may obtain the means whereby he may buy the things he thinks will bring happiness. To what ends are the inventions of this inventive age but to reduce the wear and tear of life and to lighten the burden of humanity. Why the tireless research of the scientist in his laboratory? Not only for more knowledge, but to bless mankind through the channels of medicine, chemistry and hygiene.

Education is maintained at great cost in the hope that learning will save the world from the folly of vice and ignorance. Government is provided at tremendous expense to guard against anarchy and promote the general welfare. It proceeds, in this country at least, on the premise that all have the right to the pursuit of happiness.

So civilization itself is the fruit of man's hunger for happiness. Its chief glory is the home, and the home becomes man's brightest dream of happiness, and his beautiful and honest purpose to find happiness, if it is to be found anywhere.

Yet people still fumble and fall and bruise themselves in this modern world as they did of old. People still cheat and murder and steal and quarrel. People still confuse happiness with pleasure and riches and power. Failing to find the real article, they ask what is the matter with the world.

Nothing is the matter with the world. But something is the matter with the man who, with all the agencies bending their efforts to provide happiness, finds it not.

### Worth While Verse

#### THE LOVERS

Years passed like clinking organs in the street,  
Grinding for coppers their eternal dance;  
It seemed to him and her there was no chance  
That they might ever meet.

A few words long ago they had to say,  
A look—a flower pressed into a hand—  
And then, along the horizon of the land  
The light poured out, and fiercely died the day.

Now, in the night, they sat, each one apart,  
While the years, trundling their organs, ground together  
A dreary riotous dance, that in gray weather  
Wakened the same old aches within each heart.

Under the touch of time, their wrinkles fell  
And tightened 'round their eyes. Now they were old.  
Dark, bitter ashes in a cup of gold  
Was all the past. The present was slow hell.

Yet, ere they died, they were once more united  
As two stars rushing to destroy each other.  
The thickening crust of years no more could smother  
Their hearts—the horizon rose and was uplifted—

Grief faded out before their final bliss  
That rose to birth out of the lonely places,  
They had passed over an immense abyss  
And the pale light of dawn smote on their faces.

—John Gould Fletcher in the Lyric.

### Time to Smile

#### WOULD BE AN EYEWITNESS

Through half the forenoon a small boy had lingered within eye-shot of the depositor's window of the First National bank. He was too small and too innocent-looking to be a bandit; so his presence had occasioned more curiosity than alarm.

Finally, about noon, one of the receiving clerks called to him and said:

"Sonny, is there something you wanted?"

"No, nothing much," said the lad. "I was just waiting around to see Mr. Smith come in. My father says he blows all his money in, and I wanted to see him do it once."

### Tom Sims Says

This year is Leap Year, and candidates are already leaping at every chance they get.

The women are supposed to propose during Leap Year, instead of talking the men into proposing.

### Logical Flood Control

Long Beach Press

Prevention is the surest cure for any ill. The best time to check a flood is before it starts. After a surplus flow of water begins to fill a lowland, the situation becomes increasingly difficult as the downpour continues and there is no corresponding outlet.

Absolute flood control will not be gained until excess rainfall and snow yield are held at the upper levels. In practically every watershed, Nature has provided the means for a restraining hand, some gateway that can be dammed to form the cork for an extensive reservoir.

The heaviest rains occur at the higher altitudes. When such a rain, in the warm spring months, augments its own runoff by causing winter snows to melt, the pressure which it adds to the banks of the valley stream, already taxed with the content of the storm, may be overwhelming.

The creation of giant storage basins in the hills will do more than prevent floods in the lower regions. It will conserve for irrigation and power and domestic purposes, vast deposits of water which otherwise rush to the sea, carrying with it goods and chattels, and perhaps many acres of rich, alluvial soil. During the disastrous flood which caused the initiation of joint efforts by county, state and nation to protect the region between the Sierra Madre range and the coast, losses to real property alone caused the cancellation of \$10,000,000 worth of assets on the assessment rolls of Los Angeles county. The danger to life must also be taken into account in offsetting the cost of dam construction.

A comprehensive system of reservoirs is proposed by the county flood control engineer, J. W. Reagan, whose study of conditions has extended over many years. He has outlined and mapped a complete protective plan, reaching the headwaters of every river and creek of any size.

The most extensive of these dams is designed for the San Gabriel canyon, and the estimated cost is \$25,000,000. Other smaller undertakings will call for approximately \$15,000,000, a total of \$40,000,000, which may be suggested as a bond issue covering Los Angeles county.

An object lesson in the value of such enterprises is seen in the fortunate position in which Santa Barbara finds itself on the eve of what may be a dry year. By the erection of such a dam on the Santa Ynez river, Santa Barbara now has a reserve supply of water believed to be sufficient to meet all reasonable domestic demands for two or more years, even though no rain should fall during that period. If all Southern California communities were so well insured against drought there would be less anxiety at the present time. Santa Barbara was forced by a chronic water shortage to take this costly step, but has proved a wise investment from the start; but its full benefit appears most strikingly in a threatened crisis.

As a safeguard against damaging erosion, and as a means for increasing the available water supply during the summer and fall months, the returns on the projected Los Angeles county outlay will fully compensate the proposed investment.

The same process of protective development is contemplated in the Boulder canyon dam on the Colorado river. When one estimates the worth of Imperial valley, once a desert and now the most famous garden spot in America, he can begin to measure the benefits of adequate flood control, coupled with water conservation. Until Colorado overflows safely blocked, Imperial valley is endangered; and the storage of Colorado river superfluity will make possible the creation of a number of Imperial valleys in an arid land.

No public policy more logical than this can be advanced.

### February

This cold little month, with its twenty-eight days,  
Is the season of snow with its fast-fleeing sleighs,  
And dear little Cupid stops on his way  
With missives of love on Saint Valentine's day.  
—Clifford Howard.

February—hush, the violets,  
Stirring in their dreams!  
And a something like to heart-beats  
In the death-white streams.  
—E. C. Tompkins.

Pale is the February sky,  
And brief the mid-day sunny hours;  
The wind-swept forest seems to sigh  
For the sweet time of leaves and flowers.  
—Willem Cullen Bryant.

There's not a flower on all the hills;  
The frost is on the pane—  
Tennyson.

February derives its name from the Latin word, februo, to purify.

### ADVENTURES OF THE TWINS

by Olive Roberts Barton

NO. 19—A SPRINGTIME RIDDLE

"Here's a springtime riddle for everybody to guess," said the Riddle Lady next day when she arrived in Riddle Town, having driven the whole way from her palace on the hill in her golden coach.

The Riddle Lady didn't like automobiles.

"That's nice," said Nancy politely. "Spring is the nicest time of year, so it must be a nice riddle."

"I can't be sure about that," answered the Riddle Lady, "because I wrote it in an awful—a mean—a dreadful—or I should say, a great hurry. Company came just as I was starting it, and I stayed and stayed and stayed and I had to hurry it together in about five minutes. Listen now and I'll read it to you:

"Round as a teacup and lined with moss,  
Woven of grass and bits of floss,  
Padded with down from Mother Bird's wing,  
Daddy helps to build it, while both of them sing.

"Hidden by boughs of a green spreading tree,  
I can't see them, but they can see me,  
Guarding the nursery they have made,  
I wouldn't touch it! Why are they afraid?

"Three lovely eggs all speckled with brown,  
But mostly of blue, 'twould be grand for a grown.  
What can it be, this most singular thing?

Where Mother Bird lays all her eggs in the spring?

"In this round teacup old Mother Bird sits and goes slowly for I don't s'pose she knits,  
While Daddy goes hunting—he digs and he tugs,  
And brings her a breakfast of earthworms and bugs.

"And after a while when the birds hatch out,  
It's easy to see what the rest were about,  
'Tis a cradle they builded, the finest and best,  
Though to see it you'd say 'twas a dicky-bird's —"

"Nest!" shouted everybody with one voice.

"I knew it would be too easy!" declared the Riddle Lady. "How I am ever going to divide the prize, I don't know."

"What is the prize?" asked Jack Homer.

"It's something everybody should take to the spring," said the Riddle Lady. "I made it myself. I boiled some sassafras and boneset herbs and catnip and sulphur and molasses all together and put it in a great big bottle. I have it! I'll give everybody a spoonful!"

But mind you, by the time she got the cork out 'n' everything, there wasn't a soul in sight.

Wanted: that the queerest thing ever! After all their guessing, nobody wanted the prize.
